The Speaker assumed the Chair.

Mr Smith delivered in at the Table his REASONS against passing the Bill for the Regulation of Seamen in the Merchants service. Which were

Ordered to be entered and are as follow

First It exposes the Liberty of the Subject to the Arbitrary Decision of a Justice of the Peace, contrary to the Great Charter, and therein exceeds the power of Legislation within this Province.

2dly It leaves the mariner too much in the Power of the Master, who would not be obliged by any words in the Bill to give the Seamen a discharge in writing when his Contract is performed, and yet his wages may be detained for want of it.

3dly It bears excessively hard upon a Seaman, who when out of Business, and perhaps a Stranger waiting for Justice may have no money, and yet cannot have any Credit for the Necessaries of life from any Innholder beyond ten shillings.

4thly It wants that due Temperament of Justice and Equity, requisite in all Laws. It does not sufficiently express nor effectually secure the rights of Seamen. It carries penaltys against them beyond the British Act of Parliament and tends to Reduce them to a kind of Vassalage and Slavery to Masters and owners of Vessells, in a manner inconsistent with the Spirit and freedom of the British Constitution.

5thly It is utterly inconsistent with sound policy to put Seamen under unreasonable hardships and Discouragements, while the Wealth and Power of Great Britain and its Colonies depends so much upon Seamen.

For which Reasons among some others appearing to me in the Bill, I hold myself obliged to dissent from its passing this House in its present form without Amendment.

Ordered to be entered in the Minutes and is as follows

Gentlemen,

During your short Recess, I have received a Letter of the 17th December last, from the Right Honourable Mr Secretary Pitt; and it gives me Pleasure to inform you, that his Majesty having nothing so much at Heart, as by the most vigorous Prosecution of the War, to reduce the Enemy to the Necessity of accepting a Peace, on Terms of Glory and Advantage to his Majesty's Crown, and beneficial in particular to his Subjects in America; and as nothing can so effectually contribute to that great and essential Object, as the King's being enabled to employ as imediately as may be, such Part of the regular Forces in North America, as may be adequate to some great and important Enterprize against the Enemy; it is the Kings Pleasure, that in order the better to provide for the full and entire Security of his Majesty's Conquests there, during the Absence of such Part of the regular Forces; I shoud earnestly press you to raise with all possible Dispatch within this Goverment, Two Thirds of the Number of Men you did for the last Campaign, to be formed into Regiments as fair as shall be found convenient, to hold themselves in Readiness, and particularly as much earlier than former Years as may be, to march to such Place or Places in North America, as his Majesty's Commander in Chief shall appoint, in order to be employed there under the Supreme Command of his Majesty's said Commander in Chief in America, in such Manner as he shall judge most conducive to the King's Service.

And the better to facilitate this important End the King is pleased to leave it to me to issue Commissions to such Gentlemen of this Province, as I shall judge from their Weight and Credit with the People and their Zeal for the publick Service, may be best disposed and able to quicken and effectuate the speedy levying of the greatest Number of Men; and all Officers of the Provincial Forces as high as Colonels inclusive, are to have Rank according to their respective Commissions, agreeable to the Regulations contained in his late Majesty's Warrant of the 30th of December, 1757, which is renewed by his present Majesty.

The King is further pleased to furnish all the Men so raised, with Arms, Am'unition, and Tents, as well as to order Provisions to be issued to them by his Majesty's Commissaries, in the same Proportion and Manner, as is done to the Rest of his Forces.

The Whole therefore, that his Majesty expects and requires from the several Provinces, is the levying cloathing, and pay of the Men: And on these Heads also, that no Encouragement may be wanting to this great and salutary Service; the King is further most graciously pleased, to permit his Secretary of State to acquaint me, that strong Recommendations will be made to Parliament, in their Session next Year, to grant a proper Compensation for such Expences as above, according as the active Vigour and strenuous Efforts of the respective Provinces, shall justly appear to merit.

I am likewise to inform you, that similar Orders are sent to New Hampshire, Massachusets Bay, Connecticut, Rhode Island, and New Jersey. The Southern Governments are also directed to raise Men in the same Manner, to be employed in such offensive Operations as the Circumstances and Situation of the Enemy's Posts, and the State and Disposition of the Indian Nations on that Side, may point out and require.

Such are his Majesty's gracious Measures, formed to procure Peace with Glory to his Crown, and Advantage to his Subjects in general, but with a more immediate View to the Security of his American Dominions, and the Welfare of this Province in particular. I cannot therefore doubt of your hearty Complyance with his Majesty's just Expectations, especially when you reflect with what Tenderness he requires that Assistance, which the publick Good, and your own Peculiar Happiness, render so necessary, and how desirous he is of alleviating the Burthen which might otherwise fall too heavy on you.

The Loyalty of the People of this Province, and their invariable Regard to the Honour and Interest of their Country, have been so conspicuous during this expensive Conflict, that it wou'd be injurious to suspect that your Zeal can slacken, or that in this decisive juncture, you can be influenced by any Consideration, from continuing chearfully to exert your utmost Efforts, until the great and good Purposes his Majesty has in View, shall be effectually accomplished.

Unanimity and Dispatch appear then only necessary for me to urge on this Subject, and I earnestly press you by the Vigour of your Resolutions to enable me to have the Forces in the Field as soon as possible, and by that Means prevent as much as may be, the Prejudice the King's Service might suffer, from the Delay unavoidably created by the Miscarriage of his Majesty's more early Commands on this interesting occasion.

Mr Banyar Deputy Secretary brought to the House a Message from his Honour the President which being read was
Ordered to be entered in the Minutes and is as follows vizt

Gentlemen,

It appears by the Return which I have ordered to be laid before you, that the new Levies fall greatly short of the Number provided for by the Law passed at your last Meeting; nor do I find any Encouragement to hope they will be compleated, without your farther and more effectual Aid, few Men being raised in many of the Counties, in Proportion to the Quota expected of them

You must be sensible that the intended Operations are evidently calculated with a view to retain, and secure to the Kings American Subjects, the great and extensive Advantages already gained over the Enemy. His Majesty cannot then but look for the most animated Resolutions from a people, whose own immediate Interest is so nearly concerned in the Success of his Measures, and who, on every Occasion, during the present War, have been among the most zealous and forward to promote the general service.

I therefore persuade myself, that actuated by the same Spirit and Vigour, which hath hitherto set this Colony in so respectable a Light to her Mother Country, you will now by a Law similar to the several Acts passed on the like Occasions, enable me to have the full Number of Men in the Field without loss of Time, and as you may rely on their being discharged, whenever the State of the publick Affairs will admit of it, I hope you will lengthen the period of their Service, by extending the Provision for their Subsistance beyond the first of November, to avoid the Inconveniencies otherwise so justly to be apprehended.

As this is a Mark of the royal Approbation, my Thanks are due to you, for that effectual Support and Assistance, so readily afforded on your Part, and so necessary to mine, in the Discharge of the weighty Dutys of Government.

The Time for which the Forces raised in the Province were inlisted, already near expiring, it is not possible the regular Troops destined for the important intended Expedition, can return before it is elapsed; and as in their Absence, a small Body of Men will be necessary for the Protection of the several Forts, and the whole Country: His Excellency General Amherst by his Letter of the fifteenth of June, now laid before you, desires me to recommend your continuing in Pay, for a longer Period, a Company to consist of one hundred and seventy three Men, including a Captain and three Subalterns; the Quota of this Government, agreeable to the Numbers required of the several Colonies for this essential Service.

Your Meeting could not have taken Place, after the Receipt of the General's Letter, earlier than the Harvest, a Season so inconvenient, that by the Advice of his Majesty's Council, who were of Opinion, you wou'd not hesitate in complying with this moderate and necessary Requisition, I delayed calling you together till this Time.

Gentlemen of the General Assembly,

The Supplies to be granted, bear so little Proportion to what we might have expected, and to that weight of Expence you have hitherto chearfully sustained, that to press you to it by Arguments, may be thought injurious to that Zeal for his Majesty's Service, and the Safety of his Colonies, so conspicuous in your own and the Conduct of the Representatives of the loyal People of this Province, on every former Occasion.

The present unfavourable Disposition of the Indians on the Borders of Ulster and Orange creates great uneasiness among the Inhabitants. The Information I have received will be communicated, and as some Expence may be incurred, in the Prosecution of the Measures, necessary to deter these Savages from Acts of Violence, and to bring them back to their Duty, you will consider whether it may not be prudent, by some Fund for contingent Services, to strengthen the Hands of Government, that the most effectual Protection may be given to the Settlements on any Emergency.

Gentlemen of the Council and General Assembly,

What appears immediately essential for your Deliberation I have laid before you. It wou'd afford me the greatest Pleasure to contribute to the Happiness, Ease and Prosperity of the good People of this Province: But as the Powers of Government, will probably soon be lodged in the Hands of Major General Monckton, whose Services his Majesty hath been pleased to distinguish, by constituting him his Captain General and Governor in Chief, I think it improper for me to recommend any Thing to you, which may be delayed without publick Inconvenience.

Gentlemen of the Council and General Assembly

His Majestys Service requiring the Absence of his Excellency the Governor in Chief, it shall be my earnest Endeavour, with your Assistance, that the Interest of the Province, during this Emergency suffer as little as possible.

In the present happy Conjuncture, when our gracious Sovereign has nothing to demand of you, that calls for your particular Aid, your Attention will be confined to what more immediately relates to the internal Concerns of Government, and the Welfare and Prosperity of the Colony.

Complaints of the dilatory Proceedings in the Courts of Law and of the heavy Expence in obtaining Justice, are so general and frequent, that they well deserve your Attention. I therefore recommend to you to enquire into the Grounds of these Complaints, and if found just, to apply a Remedy adequate to so great an Evil. Without doubt, it is the Duty and in the Power of the Legislature, to give Relief in every publick Grievance. The Delay of Justice is a Denial of it for a Time, and is often, when attended with great Expence, of worse Consequence to Individuals, than the absolute Refusal of Justice. The Security of Government and the well-being of Society are founded on the equal Distribution of Justice, which cannot prevail in its proper Extent, while the Expence in obtaining it is insupportable to many.

The excessive Number of Tipling Houses throughout the Province points out the Utility of a Law to restrain them. They are ruinous to many poor Families that might otherwise be usefull to the Community, and Destructive of the Morals of Servants and Slaves. Evils so prevalent and pernicious, as to claim your most serious Consideration.

Gentlemen of the General Assembly,

Besides the Support of his Majesty's Government, usually provided for at this Season, I have only to recommend, that you will Supply any Deficiency, which shall appear in the Monies already appropriated for the Pay of the Forces to the first of this Month, the Time of their Discharge.

Gentlemen of the Council and General Assembly,

Nothing will afford me more real Satisfaction, than contributing to the Welbeing and future Happiness of the good People of this Province, and you may be assured that whatever you shall propose, conducive to this End and consistent with my Duty to his Majesty, will find my ready Concurrence and Assent.

CADWALLADER COLDEN.

To the Honourable CADWALLADER COLDEN Esqr His Majesty's Lieutenant Governor and Commander in Chief of the Province of New York and the Territories depending thereon in America.

The Humble ADDRESS of the Council of the Province of New York.

May it please your Honour,

We his Majesty's most dutiful and Loyal Subjects, the Council for the Province of New York, beg leave to return your Honour our thanks for your kind Speech.

Dilatory Proceedings in the Courts of Law, and a heavy expence in obtaining Justice, are objects which so sensibly affect the Publick, that they certainly claim the serious attention of

the Legislature; and if upon Enquiry the Complaints appear well grounded and Just, your Honour may be assured of our hearty concurrence in applying a Remedy adequate to the evil. Oppressions of all kinds are truly odious, but surely those are of the most pernicious Nature that assume the face of Justice.

The Utility of a Law to suppress the number of obscure disorderly Tipling Houses that prevail throughout the Province so much to the Prejudice of the Community in general and so destructive to Individuals in particular, is without doubt very evident — The Government cannot certainly want the means and therefore the greater will be the Reproach, if the evil is suffered to continue — In correcting not only this, but every other abuse that obstructs the good Oeconomy and Prosperity of the Province, your Honour will always find our chearful Assistance.

By order of the Council

New York 30 November 1761. JOHN CHAMBERS Speaker.

His Honour the LIEUTENANT GOVERNORS Answer.

Gentlemen,

I thank you for this Address. It is not easy to conceive that complaints so general and frequent as those of the dilatory proceedings in the Courts of Justice in this Province and of the expence attending them, can be without some foundation, especially when they have gone so far as to reach the Royal Ear, as appears by the late Kings 32d Instruction to Sir Charles Hardy.

I make not the least doubt of your assistance in every thing for the Benefit of the People of this Province.

Fort-George New-York. CADWALLADER COLDEN.

Mr Banyar Deputy Secretary brought to the Council a Message from his Honour the Lieutenant Governor, which being read was
Ordered to be entered on the Minutes and is as follows vizt.

Gentlemen,

As for some Years past no Provision has been made for the Salary of Chief Justice, I think it proper to inform you that Benjamin Pratt, Esq, has received his Majesty's Commission for that Office, and has already entered upon it: A Gentleman whose Knowledge and Integrity must render him highly acceptable to the People of this Province. I therefore recommend that the Provision for this Officer be suitable to the Dignity and great Trust of the Office. It is well known that when the Salary of the Chief Justice was first fix't at £300 about the year 1715, the Value of the current Money was much higher and the Price of all Necessaries for the Support of a Family much lower than at present: and I hope you will think it highly unreasonable that a Gentleman should employ his Time in the Service of the Publick, at the Expence of his own private Fortune.

The Speaker resumed the Chair.

Ordered, that his Honour the Lieutenant Governors Speech be read.

Then the Speech was read, and

Ordered to be entered in the Minutes, and is as follows

Gentlemen of the Council and General Assembly,

Our gracious Sovereign having seen his good Dispositions to restore the publick Tranquility, entirely frustrated by the Insincerity and Chicane of the Court of Versailles in the late Negotiation, and being determined to secure and improve the important Advantages, acquired on this Continent in the Course of the present successfull War, and to reduce the Enemy to the Necessity of accepting a Peace, on Terms glorious to his Crown and beneficial in particular to his Subjects in America: And considering that nothing can so effectually contribute to these essential Objects, as his being enabled immediately to employ a Part of his regular Forces, adequate to some important Enterprize against the Enemy: His Majesty therefore, in order the better to provide for the Security of his Dominions, and particularly his Conquests in North America, during the Absence of his regular Troops so employed, has been pleased to command me earnestly to press you, to raise within this Government as soon as possible, at least the same Number of Men as the last Year, to be formed into Regiments, and employed in North America, under the supreme Command of his Majesty's Commander in Chief, in such Manner as he shall judge most conducive to the King's Service. All his Majesty requires on this Head from the several Provinces, which are likewise now called upon for their respective Quotas, is the levying, cloathing, and pay of the Men. His Majesty being graciously pleased not only to provide the Officers the Rank, but the Troops with Provisions and Equipage as on the former Campaigns. And that no Encouragement may be wanting to this great and salutary Service, the King is pleased to permit his Secretary of State to acquaint me, that strong Recommendations will be made to Parliament, to grant a proper Compensation, according as the active Vigour and strenuous Efforts of the respective Provinces shall justly appear to merit.

His Majesty having also taken into his most serious Consideration how highly essential it is to the Interests and Security of his Subjects in North America, that the regular Regiments serving there, be recruited with all convenient Expedition to their full Compliment of Effectives; and at the same Time seeing the Impracticability of compleating them from Great Britain; considering how that Country is drained by the great Number of Men furnished for the various Services in all Parts of the World, I am, in Obedience to his Majesty's Commands, likewise to recommend that you will provide for the raising of Four Hundred and Seventy Nine Men, by granting the same levy Money to these as to the others, which Number is the Quota of this Province, agreeable to the Proportions to be furnished from the other Colonies, towards compleating the regular Regiments which have been sent to America, for the Defence and Protection of the Possessions of his Majesty's Subjects there: And as a farther Encouragement to induce the Men to enter into the regular Service, his Excellency Sir Jeffery Amherst, Commander in Chief of his Majesty's Forces, will allow an additional Bounty of five pounds New York Currency, to each Man, not under Eighteen nor above forty Years of Age, who shall inlist to serve during the War, or until the Regiments return to Europe: and to the provincial Officers, Forty Shillings, like Money, for every Man they shall inlist on the above Conditions, that shall be approved of by an Officer whom the General shall appoint: And to render this Service effectual, it is expected that the Colonies do also provide for replacing such Men of their respective Quotas, as shall desert, which it is conceived may be a Means to prevent their leaving their Corps.

Gentlemen of the General Assembly,

Having laid before you the several Services which call for your Aid at this Time, I must ask of you Supplies adequate to their Importance and Exigency. Earnestly recommending that no Argument may have Weight in your Deliberations, that can have the least Tendency to check a fresh Exertion of your Abilities, as no expence can justly be thought burthensome, that is necessary to secure to yourselves, the great Advantages you already enjoy, and which there is now the fairest Prospect will be conformed and transmitted to your Posterity in a more eminent Degree, by a solid and lasting Tranquility.

Gentlemen of the Council and General Assembly,

Tho' the present Situation of Affairs would have fully justifyed the Requisition of as large a Number of Men as the Colonies have ever raised for any of the former Campaigns, yet his

Majesty, desirous to ease the Burthens of his faithfull Subjects, as far as shall be consistent with their own Safety, has been pleased to require only the same number of Men as for the last Year, in order thereby to facilitate the completing the regular Regiments by Recruits to be furnished from the Provinces of North America, a Measure so essential, and which the King has so much at heart, that any Failure or Disappointment therein, would be extremely disagreeable to his Majesty, as it must be highly prejudicial to his Service.

These Colonies, so nearly concerned in the present War, his Majesty is perswaded from a due Sense of his tender and paternal Care for their Wellfare, will in Return shew a ready and Chearful Complyance with his Demands, in their fullest Extent; And were any thing further necessary to animate your Zeal in this important Conjuncture, which is finally to fix the future Safety and Welfare of America, and of this Province in particular, I would urge what I doubt not you will persevere in, that steady and spirited Conduct of the People of this Colony at all Times, when called on in the Prosecution of this War: A Conduct which highly approves them to their Sovereign, and while it reflects Honour on themselves, must endear them to their Mother Country: Confident that actuated by the same Principles, and influenced by Considerations so powerful and interesting, your Loyalty and Zeal will be equally ardent and conspicuous, when your Resolutions must be so essential to that desireable Object, of reducing the Enemy to the Necessity of accepting a Peace, on Terms of Glory and Advantage to his Majesty's Crown, and beneficial to his People.

Fort George New York

To the Honob^le CADWALLADER COLDEN Esquire His Majesty's Lieutenant Governor and Commander in Chief of the Province of New York and the Territories depending thereon in America.

The Humble ADDRESS of the Council of His Majesty's Province of New York.

May it please your Honour,
The Council beg leave to return you their Hearty thanks for your Speech at the opening of the Session.
Affected with the most lively sense of his Majesty's Paternal care and goodness, we behold with the highest satisfaction, that Fortitude of Mind, discernable in the vigorous measures, which his Majesty, frustrated in his good dispositions to restore the public Tranquility, finds necessary to vindicate the Honour of his Crown and the Rights of his Subjects.
The Example of our Mother Country in that animated exertion of her strength and abilities, remarkably conspicuous in the Course of the present War, we are perswaded will continue to influence the Conduct of all his Majestys Subjects in America, and inspire them with a Spirit and Firmness in their Resolutions, inseparable from a distinguish'd Loyalty to their Sovereign, and a proper sense of the true Interest of his Majesty's Kingdoms and Colonies.
Steadfast in these sentiments, and unalterable in our attachment to his Majesty's Person and Government, your Honour may be assured, that our Conduct will correspond with your own Zeal for the King's Service in this truly important Conjuncture, when a ready and chearful compliance with his Majesty's Requisition of this his faithful Colony, in its fullest extent, is evidently necessary to reduce the Enemy to accept a Peace on Terms of Glory and Advantage to his Majesty's Crown, and beneficial to his People.

By order of the Council
DAN HORSMANDEN, Speaker.

City of New York

The Speaker assumed the Chair.

Mr Banyar Deputy Secretary brought to the House a Message from his Honour the Lieutenant Governor.

Ordered, that the said Message be read.
Then the said Message was read, and
Ordered to be entered in the Minutes, and is in the words following

Gentlemen,

The Declaration of War with Spain, so immediately succeeding his Majesty's late Requisition of these Colonies, shews in a pointed Light, with what Propriety the King might have expected an exertion on their Part, equal to their Efforts in any præceeding Year; tho' he graciously condescended, in ease to his faithful Subjects, to moderate the Demand of Provincial Levies, to two thirds of the Number formerly raised.

That his Majesty's Designs against the Enemy may not be retarded or disappointed, I am commanded to compleat the Forces provided for, as early as possible. Every Thing in my Power conducive to that End, I have done; and it is with real Concern I find my Endeavours less effectual than those of the neighbouring Governments, who have I am informed, completed their Numbers, while the Quota of this Province, generally first in the Field, appears by the Returns to be greatly deficient. So unusual a Backwardness is I apprehend solely to be imputed to the Reduction of the Bounty from Fifteen to the Sum of Ten Pounds.

Your Meeting therefore, became indispensibly necessary, to remove the Difficulties this essential Service labours under. There are many dispersed throughout the Province, who after receiving the publick Bounty, deserted in the former Campaigns; It is but just in the present Emergency, to oblige these to inlist; and I conceive, it would be of great Utility to impress all others, who having no visible Imployment or Means of Subsistence, are a Burthen and even dangerous to the Community.

I recommend this only as an Expedient that may make the Duty fall less heavy on more useful Members. And when you reflect that the further Operations of his Majesty's Arms, are absolutely necessary to secure the Advantages of a War hitherto extensively successful, I can have no doubt of your exerting the utmost Efforts to effectuate a Measure, with which the Honour of his Majesty, and the Reputation and Safety of the Colony are so nearly connected.

Ordered, that the said Message be read.
Then the said Message was read and
Ordered to be entered in the Minutes, and is in the words following

Gentlemen,

From a general Return of the Inlistments now lay'd before you, it appears there are still wanting four hundred and thirty six Men, to complete the Quota provided for, exclusive of what may be short at Oswego; If to these, we add the Difference between the Numbers inlisted, and those who pass Muster, which will probably be greater than usual, the Deficiency is too considerable, and the publick Service too pressing, not to require the most speedy Provision.

It is evident the present War with France, took its Rise from a determined Resolution to restrain her unjust Encroachments on these Colonies. The principal Operations have ever since been conducted with an immediate View to their Safety; and the same gracious Purpose is manifested in the spirited Measures his Majesty is pursuing at this Time. While we must be gratefully sensible that the chief Burthen of the Expence hath fallen upon, and is still chearfully supported by Great-Britain, although now highly augmented by a new Rupture, in which we are involved through the Arrogance and Jealousy of the Spaniards; who, impatient of the many important Acquisitions of his Majesty's Arms in America, propose by the Addition of their Weight to turn the Scale, and prevent the salutary Effects we had Reason to expect from a Series of Victories and Conquests: With what Justice then does the King require an Aid so reasonable and necessary from his faithful Colonies, and how great will be his Disappointment, if when the Mother Country is exerting her utmost Strength, they should not in Imitation of their great Example, do every Thing in their Power, towards the Success of Measures, essential to their own future Happiness and Security: I therefore earnestly recommend, that you will now effectually enable me, without Loss of Time to complete the Levies; lest after the most signal Proofs of Loyalty, you should expose yourselves to Reproach, by slackening your Zeal for the common Good at this important Conjuncture.

Ordered, that His Excellencys Speech be Read.

Then the speech was Read and

Ordered to be entered in the Minutes and is as follows

Gentlemen of the Council and General Assembly,

I Have the great Happiness to congratulate you on the auspicious Birth of a Prince. An Event which must inspire every British Subject with the most grateful Sentiments of the Divine Goodness, as it promises Security and Permanency to the inestimable Blessings derived to our Country, from our gracious Sovereign, and his illustrious House.

The military Operations since your Recess, are also a Source of publick Joy and Exultation. Havannah, the Key to the Settlements and Treasures of Spain, fortifyed by all the Advantages of Art, and defended with Vigour and Obstinacy, is gloriously subjected to his Majesty's Dominion, and by the Capture of all the Ships in the Port, the Marine of our Enemy most essentially debilitated.

The commercial Settlement of St. John's in Newfoundland, seized by a feeble Effort of the declining Power of France, is happily regained, by a well-timed and spirited Enterprize, wisely projected, and gallantly executed.

These eminent Successes, which add fresh Lusture to the established Reputation of his Majesty's Arms, are the more interesting, as they must at this crittical Conjuncture be of the utmost Moment, in advancing that great and desirable Object, a glorious and a solid Peace.

Gentlemen of the General Assembly,

His Excellency Sr Jeffery Amherst, in the Beginning of August, having requested me to recommend to you to provide for the continuing in Pay, a Company of one hundred and seventy three Men, including a Captain and three Subalterns, his Majesty's Council, confident that the same Zeal would influence you to this necessary Measure, which had induced you to support it the last Year, advised me to delay calling you together, until the ordinary Season of your Meeting, and in the mean Time to give Orders for the Inlistments. In Consequence of which, this Corps is now nearly compleated. From the dispersed Situation of his Majesty's regular Troops, employed in many various Services, and the absolute Necessity of garrisoning the extended Posts on this Continent during the Winter, the Propriety of this Requisition must be too apparent, to need any Arguments to enforce it. I therefore do not in the least doubt but you will very readily make the Provision required.

The Support of his Majesty's Government expiring the first of September, it is my Duty to recommend this to your early Attention. The Dignity and Importance of the Office of Chief Justice, and of the Judges, who are intrusted with the Lives and Rights of the Subjects, render it as essential to your own Happiness and Security, as it is to the Honour of the Crown, that a suitable Augmentation be made to their Salaries; that this high Trust may not fall into Contempt, but be rendered worthy the Exercise of Men of approved Merit, Learning and Ability. On this Point, it is proper I inform you, that by his Majesty's additional Instruction to me, I am restrained from assenting to any Act, by which the Tenure of the Commissions to the Judges shall in any Manner be regulated or ascertained.

The Provincial Troops have unavoidably been imploy'd longer than the Time appointed by Law; and many of them who have served abroad, from the Fatigues and Climate to which they have been exposed, will stand in need of Relief. I therefore urge you to make sufficient Provision, that those who have engaged, and suffered in the Defence of their Country, may be supported at her Expence, on their Return, and until they can arrive at their Habitation.

Gentlemen of the Council and General Assembly,

Among the Laws which require your Consideration, I must point out to you, the Necessity of reviving those for billeting and quartering the King's Troops, and the impressing of Horses and Carriages: Experience having shewn the Impracticability of carrying on the public Service with Effect, without the Aid of these Laws.

The just Sence I entertain of the Honour the King has conferred on me in my appointment to this Government and my sincere and ardent Desire to promote the Welfare and Felicity of the People committed to my Care, will always induce me with Pleasure and Allacrity, to support and encourage every Measure, and every Object, that can tend to his Majesty's Service, and their Wellbeing and Prosperity, in which I cannot fail of having your hearty Concurrence. Actuated by these Principles, I flatter myself, I shall enjoy that inward and solid satisfaction, which must be the Reward of an upright and disinterested Administration.

Gentlemen,

The Inhabitants near the Limits established between the Counties of Albany and Ulster being at a Loss respecting the Course of the Line from Hudson's River Westward have earnestly desired it may be run by the Authority of the Government. This is a matter which deserves your consideration, as it must be attended with expence, is essential to the quiet of the people, and may affect their Rights: I therefore recommend to you to make provision for a Service of Such apparent utility. At the same time I think it necessary that the Law for dividing the Province into Counties should be revised and amended, that by fixing the several Lines with precision and exactness, the inconvenience of a doubtful jurisdiction may be avoided.

Ordered to be entered in the Minutes and is as follows

Gentlemen,

No Provision being made for defraying any Expense however necessary in the carrying on Prosecutions at the suit of the Crown, the publick Justice is in danger of suffering, and in some Instances may be defeated. At the same time I cannot avoid observing that his Majesty's Attorney General, the only officer who prosecutes for the Crown, after the most able and faithful discharge of his Trust, has no recompence adequate to services so essential to the Community, the Law not giving any Costs in Criminal Causes. I therefore recommend these matters to your consideration not doubting but you will provide for them amply and effectually.

Gentlemen,

The Settlement of the Partition Line. between this and the neighbouring Colony of New Jersey, is of the utmost Concern to the Peace and Quiet of the People. Not only the Borders will experience its Utility, but as the Soil now lyes waste or unoccupyed, and may be improved to important and valuable Purposes, the Consequences will be diffusive, and extensive: Whilst any Delay must apparently revive that Animosity and Violence, which have long subsisted, and if not timely prevented, may be carried to a Length even dangerous to the Community. Without the Interposition of the Legislature there is no Remedy for this growing Evil. My Duty to the Crown, and the Part I take in whatever so materially affects the Rights of his Majestys Subjects, indispensibly oblige me earnestly to recommend this as an Object highly deserving your Consideration, and I cannot doubt the same powerful Arguments, will induce you to make Provision for a Service so essential to the Prosperity of your Country.

His Honour the Lieutenant Governor having left the Council Chamber, and the General Assembly returning to the Assembly Chamber

The Speaker resumed the Chair.

Ordered, that his Honour the Lieutenant Governor's speech be read.

Then the speech was read, and

Ordered to be entered in the Minutes and is as follows:

Gentlemen of the Council and General Assembly,

The great and desirable Work of Peace, being by the Wisdom and Magnanimity of our gracious Sovereign happily accomplished since your Recess, I cordially congratulate you on this joyfull Event so highly glorious to his Majesty, and extensively Beneficial to his People. His American Subjects, who will derive from it a Security unknown since the first Establishment of these Colonies, must receive this Mark of the royal Attention to their Interest and Safety, with the warmest Sentiments of Loyalty, Gratitude and Affection.

The Enjoyment of solid Tranquility, is however unhappily suspended, by the daring and unprovoked Attacks of some of the Western Tribes of Indians, who under the specious Appearance of Friendship, have treacherously surprized some of our remote Posts, and are in open War renewing with relentless Cruelty, that Horror and Desolation among the defenceless Inhabitants from which they were so recently delivered.

To suppress this dangerous Defection pregnant with the most fatal Evils before it becomes more extensive and formidable, is our indispensible Duty.

The Preservation of our own Frontier, should be our first and immediate Care, every Motive of Policy Justice and Humanity, unitedly demanding the Protection of our fellow Subjects, whose distant and dispersed Situation must otherwise leave them an easy Prey to merciless Savages.

But barely to defend ourselves, would be giving the Enemy every Advantage, and expose us to perpetual Disquietude. It is necessary a Force should be raised, sufficient to chastise these faithless People, that feeling the Weight of our Resentment, they may be awed for the future, by the Fear of Punishment; Experience evincing, that destitute of every just and humane Principle, nothing else can secure us against their continual Ravages and Depredations.

Since then, not only the Prosperity of the Colony, but the very Existence of a great Part of it, depend on the most active and spirited Measures, no Arguments can be wanting to animate you to a vigorous Exertion of your Strength in the Accomplishment of this essential Object.

I shall therefore content myself with laying before you a Letter, I received from his Excellency Sir Jeffery Amherst, Commander in Chief of his Majesty's Forces, pressing this Government to furnish a Proportion of Men, to proceed early in the Spring, in Conjunction with the regular Troops, on this important Service; Did the Subject require it, his superior Abilities would render it unnecessary for me, to enforce what he so wisely urges for subduing that restless fierce and cruel Spirit of the Savages, the Source of the most dreadful Calamities.

Gentlemen of the General Assembly,

I flattered myself the ordinary support of his Majesty's Government, would have been the only Aid required of you at this Time, But the unexpected Revolt of the Indians, renders a much greater Expence unavoidable. Besides providing for the Company now posted at Fort Ontario, Niagara and Detroit, which General Monckton, by the Advice of his Majesty's Council, a few Days before his Departure, directed to be continued on that Service, I earnestly recōmend you will grant the necessary Supplies for raising, cloathing, and paying a Body of Forces, sufficient with the other Troops, to avert the Dangers we fear, avenge the Injuries we have received, and convince the Savages of our Ability to compel them to Submission.

Gentlemen of the Council and General Assembly,

The Enemy have already infested the Border of Orange and Ulster, and tho' I am confident of the Spirit and Activity of the Militia, yet as this Duty will soon be too severely felt, I assure myself you will enable me to ease them, and by the most vigorous Resolutions in this important Conjuncture, secure to yourselves, the great Advantages of a Peace peculiarly calculated for the Happiness of America.

Fort George, New York, CADWALLADER COLDEN.

The Humble ADDRESS of the Council of the Province of New York.

May it please your Honour,

We his Majesty's most dutiful and loyal Subjects the Council of the Province of New York, returning your Honour our hearty thanks for your Speech, beg leave to present our cordial congratulations on the Re Establishment of the publick Tranquility, by a Peace so highly glorious to our illustrious Sovereign, and eminently advantageous to his people. Sensible of the solid and lasting security it will derive to his Majesty's American Subjects, We acknowledge with the utmost Gratitude this distinguished Instance of his Royal and Paternal Care for their Happiness and Prosperity.

It is with the greatest concern we see this happy prospect for a time interrupted, by the unnatural Revolt of some of the Indian Tribes whose disobedience & cruelty, merit the severest chastisement, and as a conduct vigorous and spirited, can only bring them to a sense of their duty your Honour may be assured of our hearty concurrence in every Measure, that can avert the dangers we have to fear, avenge the Insults we have sustained, and convince those merciless savages of both our Ability and resolution to compel them to a due submission.

By order of the Council

Gentlemen of the Council and General Assembly,

Since your Recess, Affairs with respect to the Indians, have taken a more favourable Turn; several of the Western Tribes at Detroit, dispirited by the gallant and obstinate Defence of that Post, were intimidated to a Submission. While Parties of the Six confederate Nations, now in general well affected to our Interest, are actually gone to chastise the Delawares, and those other Tribes, who have cõmitted such insolent Ravages. I am confident that incouraged by the Prospect of speedily terminating this distructive Rupture, no Efforts will be wanting on your Part, to promote that Tranquility, which is so essential to your own Welfare, and the general Prosperity of these Colonies: and this will be most effectually done by shewing ourselves prepared for all Events.

Gentlemen of the General Assembly,

The Preservation of your Frontier still requires your Attention. I must also recommend your making Provision for the Company lately posted at Oswego; the General who considers this Corps, as destined to joyn the regular Forces, having desired that it may be compleated and in Readiness for immediate Service.

Ordered, that his Honour the Lieutenant Governor's Speech be read.

Then the Speech was read, and

Ordered to be entered in the Minutes, and is as follows.

Gentlemen of the Council and General Assembly,

Desirous to consult your Ease, I have called you together at a Season, represented to me as the most convenient to yourselves.

Your enabling me to place Guards on the exposed Parts of the Frontier, hath been attended with the most salutary Effects; the People having remained intirely free from the Incursions of the Indians, who seldom attack those they find prepared for Defence.

With great Satisfaction I congratulate you on the Peace lately concluded with the several Nations of Indians at Niagara, thro' the Ability, Experience, and zealous Efforts of Sir

William Johnson. The Army collected to chastise them, while it facilitated this happy Measure, must by impressing on the Minds of the Indians, a high Sence of our Power, render their Submission more firm and lasting. It will give you peculiar Pleasure to be informed, that his Majesty graciously distinguishes and approves your Conduct, in providing for the Troops now in your Pay, who have greatly contributed towards the general Service.

Gentlemen of the General Assembly,

With the Support of his Majesty's Government, I recommend the Discharge of the publick Debts. Emergencies often arise, which make it necessary to have recourse to private Persons: publick Credit ought therefore inviolably to be preserved.

Gentlemen of the Council and General Assembly,

The Law granting a Bounty on Hemp, is expired without its intended Effect. There are large Tracts of Land in this Province, well adapted to the Production of this valuable Article; which by proper Means, may become a Staple highly beneficial to us, and is an Object so interesting to our Mother Country, as to have received Encouragement from the British Parliament. The Farmers in general are ignorant both of its Culture, and Preparation for Manufacture. Rewards therefore are requisite to excite their Attention and annimate them to the pursuit of this important Branch of Husbandry. On the Revival of the Act, I hope all Ranks in the Mercantile as well as the landed Interest, will unite in promoting a Design calculated for their common Advantage, and eminently conducive to the Prosperity of the Colony.

Fort George, New York CADWALLADER COLDEN.

To the Hono^ble^ CADWALLADER COLDEN, Esqr his Majesty's Lieutenant Governor and Commander in Chief of the Province of New York and the Territories Depending thereon in America

The Humble ADDRESS of the Council of the Province of New York.

May it please your Honor

We his Majesty's most dutifull and loyal Subjects the Council of the Province of New York, return your Honor our hearty thanks for your Speech.

It is with pleasure we observe that the measures wisely adopted by the Legislature for the Protection of the Frontier, hath, by your Honor's great Vigilance, afforded the most effectual security to the Inhabitants.

The Growth and extension of these Colonies, so much depend on a good understanding with the numerous surrounding Indian Nations, that we cannot but rejoice in a Prospect of a solid Tranquility with that People, now happily restored by the Treaty at Niagara concluded under the able direction, and thro' the zealous Efforts of Sir William Johnson convinced of their own Inability and Weakness, opposed to the Power justly exerted for their Punishment; and impelled by pressing want and necessity; we hope their submission is offered with sincerity, and will be more firm and lasting.

With the utmost Gratitude, we receive the distinguished mark of the royal Goodness, manifested by his Majesty's Gracious approbation of the conduct of this his loyal Colony in providing for the Troops raised for the publick service.

Sensible that the granting a bounty on Hemp, and encouraging the other Productions to which this Country is adapted, will not only increase the Intercourse between our Mother Country and this Province, but prove highly beneficial to both. Your Honor may be assured that, in Imitation of the wise example of Great Britain, we shall chearfully unite with the other Branches of the Legislature, in promoting Agriculture and Commerce; without which this Colony must soon be reduced to Poverty, and the utmost distress.

By order of the Council

Gentlemen,

The Establishment of the Limits between his Majesty's Colonies, being of the utmost Importance to the Quiet and Tranquility of his People, the Legislatures of this and the Province of New Jersey, united in passing Laws for defraying the Expence that shall accrue in the final Settlement of the Line of Partition between them. And I have the Satisfactiou to inform you, that the Rt Honoble the Lords Commissioners for Trade and Plantations, have recommended those Laws, as proper to be confirmed by his Majesty, and that the royal Commission should issue in Consequence thereof.

The desirable Effects which must result from this salutary Measure, call for the like Provision on your Part, in order finally to ascertain and determine the Boundary between this Colony and the Province of the Massachusets Bay. A Matter long contested, and which has been productive of frequent Riots and Disorders, to the Disturbance of the publick Peace: and the Injury of private Property, I therefore earnestly recommend this as an Object highly deserving your Consideration.

Ordered to be entered, and is in the words following.

Gentlemen,
His Majesty thinking it just and reasonable, and essential to his Interest, and the Security of his Colonies, that the several Nations or Tribes of Indians who live under his Protection, should not be molested or disturbed in the Possession of the Lands, which have not been legally and without Fraud purchased of them; and having declared his determined Resolution to remove all reasonable Cause of Discontent, which they entertain: I have received Directions to inform you of the great Dissatisfaction and Uneasiness expressed by the Mohock Nation, on Account of the Patent known by the Name of Kayaderosseras or Queensborough; and to recommend to you, the passing a Bill for vacating and annulling that Grant.
The Indians disown the Sale of those Lands, and they have frequently been a Subject of their Complaint; indeed on compareing the Grant with the Indian Purchase, the Boundaries of the former appear to comprehend, a far greater Extent of Country, than, by any Construction can be included within the Description in the Indian Conveyance. The Mohocks, who it is well known, never obstruct a Settlement, where the Purchase is fair and regular, have not suffered any Improvement to be made by the Proprietors; and the Tract, even to this Day, remains in common and undivided.
With Copies of the Letter Patent and Indian Purchase, I have ordered to be laid before you, the Proceedings at a late Conference with the Mohocks, which discover fresh Complaints, and that while those People appeal to ourselves for a Proof of their Attachment, they reproach us with a Delay of the Justice due to them, in Return for their unshaken Fidelity. I cannot, therefore doubt your applying the most effectual Remedy in a Case wherein the Honour of the Crown, and the Interest of the Publick are highly concerned.
Fort George New York CADWALLADER COLDEN.
2d October 1764.

Gentlemen of the Council, and Gentlemen of the General Assembly,

His Majesty having been pleased to appoint me His Governor in Chief of this Province, I have given you the earliest Opportunity after my Arrival, of making that Provision for the Exigencies of the Government which the Expiration of your annual Laws, and the public Service in general, may require; and am fully persuaded that your Attention to the Welfare of this Province, will induce you to take into your serious Consideration, the various Plans which have at different Times been proposed for the Encouragement of the American Colonies, by extending the different Branches of their Commerce, which if properly attended to cannot fail of becoming a lasting Source of Wealth, not only to yourselves, but to your Mother Country.

Gentlemen of the General Assembly,

After the necessary Supplies of the Government are provided, I beg Leave to recommend to you the Case of the unhappy Sufferers by the late Fire at Montreal: Their Distresses plead loudly for them, and render an Application in their Behalf highly proper, as private Contributions bear so small a Proportion to the Relief required in so general a Calamity.

Gentlemen of the Council, and Gentlemen of the General Assembly,

I flatter myself, that your Zeal for His Majesty's Service, and the Good of your Country, will engage you to carry on your Session with the Unanimity becoming your Station, and the Purposes for which you are convened: Let these great Objects be ever present before you, and have such Influence on your Conduct, as not to be undeserving of that Protection which has been extended by our Most Gracious Sovereign, to his most distant Subjects. My ready Concurrence shall never be wanting in every Measure consistent with the King's Instructions, which can tend to promote the Interests of this Province; and I shall be extremely happy to have it in my Power, as much as it is in my Inclination, to make it the most flourishing Part of His Majesty's Dominions in America.

Then his Excellency's Speech was read, and

Ordered to be entered in the Minutes and is as follows:

Gentlemen of the Council & Gentlemen of the General Assembly,

The General satisfaction which has been diffused throughout the Colonies, on the late favorable Proceedings of the Parliament of Great Britain, in the Repeal of the Stamp Act; and the Impressions made on the minds of the People, on receiving such distinguishing marks of his Majesty's favor and Protection, have induced me to give you the earliest Opportunity of making those acknowledgments of Duty and Submission, which on such an Occasion must arise in the Breasts of every Individual. The misrepresentations heretofore made by Artful and designing Persons, have had their Effect in imposing on the Weak and Credulous; and false Hopes and fears are now conceived by those, who from their Situation, can only see and hear at a distance, and of Course are easily imposed on; Let it be your concern to undeceive the Deluded, and by the powerful Examples of your own Conduct, bring back to a Sense of their Duty, those who have been misled; that nothing which can carry with it the least resemblance of former Heat and Prejudice, may be suffer'd to prevail, and the minds of those who are too easily agitated, be again disposed to a chearful Obedience to the Laws, and to sentiments of respectful gratitude to the Mother Country.

Gentlemen of the General Assembly,

I must at this time recommend to your particular Attention, the Case of those unfortunate Persons, who from the Licenciousness of the Populace, have suffer'd for their deference to the Acts of the British Legislature: I flatter myself that they who sue to this House for Justice will never sue in vain; and that it will be no ungrateful Task for this Province to take the lead on such an Occasion, and by making a full and ample compensation to the sufferers for their Goods and Effects destroyed, shew to the neighbouring Provinces by an Example great as well as just, the sense which is here entertained of the benefits lately received. The Resolutions of the House of Commons have by his Majesty's commands been transmitted to me, in order to be laid before you: These sufficiently shew the sense of that august Assembly on this Point, whose sentiments it should be your Glory to adopt and imitate, as they are so evidently founded on the clearest Principles of Humanity & Justice; This carries its own Recommendation with it, and makes it needless for me to enforce by Arguments a Measure, which at the same time it will do Honor to the Province, will shew yourselves not unworthy of that Royal Condescension and Protection, which have been manifested on the late interesting occasion.

Gentlemen of the Council and Gentlemen of the General Assembly,

I have nothing more in particular to lay before you at this Juncture, and shall be extremely happy to shew my ready concurrence with you, in promoting every measure which can tend to the Service of His Majesty, and the wellfare of the People.

New York 12th June 1766. H: MOORE.

The Council, impressed with the warmest Sentiments of Duty and Gratitude to his Majesty, for the late most distinguishing Mark of Royal Favour and Protection, and fill'd with the highest sense of the great Wisdom, Justice and Moderation manifested in the Proceedings of that August Body the British Parliament; return your Excellency their unfeigned thanks for this early Communication of an Event, so ardently hop'd for, and so highly satisfactory to these Colonies.

To undeceive the deluded, and to bring back to a sense of their Duty, the Misguided and Prejudiced, have been the fixd objects of our Attention; sensible that where Submission to the Laws is wanting, Anarchy and Confusion must ensue; Evils the most to be dreaded, as they are the most pernicious to Society. And you may be assured Sir, that nothing shall be wanting on our Part, to inculcate in the minds of the People a thorough sense of the Obedience they owe, the Dependence they stand in, and the Benefits they receive from their most gracious Sovereign, and their Guardians, the British Parliament: Confident that the Colonies in general, will by their conduct shew themselves deserving of every mark of Royal Favour and Indulgence.

With Joy undisembled, we reflect on an Event, so happily tending to dispel every Jealousy between your Majesty's British and American Subjects; to revive their Commercial Intercourse; to confirm their wonted Confidence; and to strengthen that Union, which must continue indissoluble while supported by an equal Distribution of Rights; a just Dependence upon, and a due subordination of the Colonies to the Mother Country.

Permit us Most Gracious Sovereign, while we exult in your paternal Protection, to testify at the same time our Veneration and Gratitude to your Majesty's Parliament; and to offer those dutiful Acknowledgements, which the Wisdom, Justice and Moderation of that August Body, display'd on this interesting and memorable occasion, so justly demand.

Could any thing augment our Zeal for your Majesty's Person and Family, it must be this recent and affecting Proof of the Royal Beneficence. Animated with a lively sense of Duty to the best of Kings, We shall use our utmost Influence to support and strengthen your Majesty's Government, and set an example to the people, of an unremitted Exertion in the Defence of your Sacred person, and in the maintenance of the Protestant Succession ; most ardently wishing there never may be wanting a Prince of your Majesty's illustrious Line to reign over your extensive Dominions.

Then his Excellency's Speech was read, and

Ordered to be entered in the Minutes and is as follows.

Gentlemen of the Council and Gentlemen of the General Assembly,

The meeting of the General Assembly has been delayed beyond the usual time, as I was in daily Expectation of receiving his Majesty's Commands, in regard to an humble Representation made of the Distress in which this Colony would shortly be involved, through the want of a sufficient Paper Currency: And it is with the greatest satisfaction, that I can open this Session with a fresh Instance of his Majesty's paternal Regard and Protection, extended to this Province, who has been graciously pleased, under certain Restrictions, to revoke that Instruction, by which the Commander in Chief here, was precluded from giving his Assent to any Act which should be framed for striking Bills of Credit, and issuing the same in Lieu of Money. The Royal attention so constantly paid to the Sufferings of the People, and the late Examples given of it, are such signal Instances of his Majesty's Condescension and Tenderness for their Interests, as cannot fail of exciting the warmest sentiments of Gratitude in the minds of every Subject, and be productive of the highest Returns of Duty and Submission.

Gentlemen of the General Assembly,

The great Expence in which this Colony has been engaged for some time past, and the Difficulties which still subsist in regard to Limits between this and the Neighbouring Provinces of Massachusets and the Jerseys, have engaged me to ascertain as soon as possible, the Line which his Majesty has been pleased to fix, by his Royal Proclamation, for the Boundary between this Province and Quebec. And after the necessary supplies of Government are raised, I must recommend it to the General Assembly to make Provision for the farther opening and continuing this Line, in which I flatter myself that the Province of Quebec, equally interested in it, will readily contribute, as a Mutual Benefit will be derived from it. I must at the same time earnestly request that proper measures may be taken to settle the Boundaries between the different Counties in this Province, and fix them by Authority. The want of a due attention

to so necessary a Service, has already given rise to many Inconveniencies, and the continual Scenes of Litigation and Disorder, occasioned by vague and undetermined Limits, call for Redress in the strongest terms.

Gentlemen of the Council and Gentlemen of the General Assembly,

I shall during the Course of your Session, take Opportunities of laying before you some matters which have occurr'd to me during the late Tour I made; and recommending to your consideration whatever may be conducive to the publick service; as I am fully persuaded that the Legislative Bodies will chearfully co-operate with me in whatever can be proposed for his Majesty's Service, and the good of their Country.

New York 10th November 1766. H: MOORE.

The Humble ADDRESS of the Council of the Province of New York

May it please your Excellency,

We his Majesty's most loyal and dutiful Subjects the Council for this Province return your Excellency our hearty thanks for your Speech at the opening of this Session, and for the Communication of his Majesty's gracious Intentions towards the People of this Colony, in altering the Instruction relative to the Emission of a Paper Currency.

Sensible of the great Importance of having the Limits of the Province well established, we have great satisfaction in the early measures that your Excellency has taken to ascertain the Line, which his Majesty has been pleased, by his Royal Proclamation, to fix as the Boundary between this Colony and Quebec; and hope your Excellency's Recommendation to provide for the further opening and continuing that Line, will have the desired effect.

We are also sensible of the necessity of a settlement of the Boundaries between some of the Counties; the want of which hath already given rise to Litigation and Disorder; which must continue till proper measures are taken to adjust the same.

We beg leave to assure your Excellency, that we shall be ready on all occasions, to assist in every measure that may be conducive to his Majesty's service, and the good of this Colony.

Gentlemen of the Council and Gentlemen of the General Assembly,

The Difficulties under which this Province has laboured, in respect to its Eastern Boundaries, and the Differences in which it has been engaged, in consequence thereof, with the Province of the Massachusetts Bay, having been laid before the King, I am directed by his Majestys principal Secretary of State to recommend to you, that a speedy and amicable adjustment of these Disputes may take place, and the most effectual Method pursued for settling every Difference, relative to the Boundaries of the respective Colonies, by Commissaries appointed from each of them for that purpose.

In a Concern of so publick a Nature, I flatter myself that nothing will be neglected by you, which can tend to the bringing this affair to a happy conclusion; and that you will proceed without delay to the Nomination of Commissaries on the part of this Government whose knowledge and abilities may recommend them as proper arbitrators in a case of such Importance, and whose Moderation may give them such weight among those appointed to act with them, that from their Example no means may be left untryed for surmounting any Difficulties which may occasionally arise.

The Preservation of the publick Tranquility, and the Protection of private Property, are so far the objects of this Negotiation, as to demand your most serious attention; a generous manner of acting, together with proper concessions made on both sides, cannot fail of obtaining the desired success on this occasion, and rendering your Endeavours highly acceptable to both Provinces, as all cause of future Dissention between them may thereby be effectually removed.

Gentlemen of the General Assembly,

As the Act for providing Fuel, Barracks &c for his Majesty's Troops now quartered in this City, will expire in a few days, I am now to recommend a farther Provision for them, and on

the Plan prescribed by the Act of Parliament. I am fully persuaded that on a due consideration, the Impropriety of the Limitations in the Act of Assembly pass'd last year will sufficiently appear; and that this House will with chearfulness provide for the Troops in the manner now expected from them, nor suffer either an ill-timed Parsimony or injudicious Restriction, to cast such a Reflection on their Proceedings, as can any way be construed to represent them as undeserving the Favours they have received from the Crown.

Gentlemen of the Council and Gentlemen of the General Assembly,

The inconveniences which must attend a long Session at this Season of the year, will naturally induce you to proceed to Business with Despatch, and I shall be happy in having an opportunity of shewing my Readiness to join with you in whatever can promote his Majesty's service, or contribute to the good of the Province.

Ordered to be entered in the Minutes and is as followeth

Gentlemen of the Council, and Gentlemen of the General Assembly,

The sanguine Expectations so lately raised here of seeing our Disputes with the Province of the Massachusets Bay, in regard to Boundaries, brought to a speedy Determination, are hitherto disappointed; And notwithstanding the well known abilities of the Commissaries employed in this service, it will appear from their Report, that a Negotiation of so much Consequence to both Provinces, and from which the advantages to be derived were mutual, had not been attended with the wish'd for success: But as their near approach to an Agreement seems to point out that the Difficulties still subsisting are by no means of such a nature as to preclude all Expectations of being removed, I must recommend it to you, that such steps may now be taken, as you shall think most conducive to so good a purpose; And that your ready concurrence may not be wanting in every just and reasonable measure for bringing this Matter to a desirable Issue.

In the mean time the particular situation of that part of the Country, chiefly interested in the event of this Dispute will require your serious attention, and it is hoped that nothing will be omitted on your part to discourage and prevent the renewal of those Disputes, which so lately prevail'd there to the Ruin of Individuals and the Disgrace of Government.

Gentlemen of the General Assembly

In laying before you the Act passed in the last Session of Parliament, relative to the Legislature of this Province, and transmitted to me by his Majesty's principal Secretary of State, I cannot harbour the least Doubt, but that the prudent Conduct of this House will render the Provisions contained in it unnecessary, and that their Zeal for his Majesty's Service and attachment to his Government will always engage them to entertain a due sense of the Blessings which they enjoy under his Protection and the Influence of the British Constitution.

I must again repeat what I urged in a former Session concerning the vague and undetermined Boundaries of the different Counties of this Province, and the Necessity for making a proper Provision for ascertaining them A very essential service will thereby be rendered to the Country, by preventing those Scenes of Litigation which so much impede the present settling of those parts, and of course must in time be productive of the greatest mischiefs.

Gentlemen of the Council and Gentlemen of the General Assembly

As his Majesty's Service and the Benefit of the Province will be concerned in whatever I may have to lay before you during the Course of your Session I flatter myself not only of having your assistance in points of such Importance to this Community, but that it will be granted with Chearfulness, Unanimity and Dispatch.

The Humble ADDRESS of the Council of the Province of New York.

May it please your Excellency

We his Majestys most dutiful and loyal Subjects, the Council of the Province of New York, beg leave to return your Excellency our hearty Thanks for your Speech.

The Mischiefs of an uncertain jurisdiction are so obvious, and the contested Partition between this and the Province of the Massachusets Bay, has been such a source of Distress and Confusion, that the ill success of the late Negotiations for the settlement of a temporary Line, gives us a very sensible concern.

Being utterly averse to the continuance of these tedious destructive animosities, and willing to encourage the most distant hopes of a friendly accommodation between the two Provinces, we are ready to concur with your Excellency in every just and reasonable measure to bring this important matter to a desirable Issue, and shall exert ourselves to prevent all Disorders that may be either detrimental to the Subject or dishonourable to Government.

Confiding in your Zeal for his Majesty's service, and the welfare of the Province, and being ourselves animated with the same laudable Designs, permit us to assure your Excellency of our Chearful, ready and unanimous aid in the Business of this Session.

By order of the Council

That on Monday the twenty eighth Instant, they were joined by Mr Cruger, Mr Philip Livingston, Mr Lispenard, Mr Bayard, Mr Holland and Col Livingston of the Committee of the General Assembly.

That the joint Committee then proceeded to an Enquiry into the Contents of the said Pamphlet, and were of opinion that it not only highly reflects upon the Honour, Justice and Dignity of his Majesty's Council, the General Assembly and the Judges of the Supreme Court, but contains the most malignant aspersions upon the Inhabitants of this Colony in General.

That it tends to destroy the Confidence of the People in two of the Branches of the Legislature, and the Officers concerned in the due Administration of Justice, to render the Government odious and Contemptible, to abate that due Respect to Authority so necessary to peace and good order, to excite disadvantageous Suspicions and Jealousies in the minds of the People of Great Britain against his Majesty's Subjects in this Colony, and to expose the Colony in General to the Resentments of the Crown and both Houses of Parliament.

That immediate and effectual measures ought to be taken, to defeat the malicious designs of the Author and Publisher of the Pamphlet, by a Detection of its Falsehoods and Misrepresentations, and a full Clear and Just Vindication of the Colony and Government from the injurious Calumnies therein contained.

That it seems expedient to the joint Committee of both Houses, that the General Assembly appoint a Committee of their House, to examine and report the unjust Charges, with an ample and satisfactory Refutation, to discover the Author and Publisher, and declare what they Conceive to be the most prudent and effectual measures for applying a Suitable Punishment, and deterring others from so iniquitous and dangerous an Offence.

Then the Speech was read and

Ordered to be entered in the Journals of this House and the same is as follows

Gentlemen of the Council and Gentlemen of the General Assembly,

No immediate service of the Province having required my convening you upon the return of the Writts for the late Election I have delayed your meeting till the usual season of passing the annual Bills, to avoid the Inconveniencies attending a Session in the summer Months.

It is with great satisfaction that I can now lay before you a Report of the Lords Commissioners for Trade and Plantations, in consequence of which his Majesty has been pleased to direct that the Regulation of the Trade with the Indians, shall for the future be left with the Colonies, as the Importance of such a concern to them must necessarily engage their respective Legislatures, in the pursuit of measures best calculated to answer the purpose of his Majesty's gracious condescension in committing this valuable Branch of Commerce to their Management.

Gentlemen of the General Assembly,

The advantages arising not only from the Intercourse of Trade with the Indians but from the Maintainance of that Tranquility among them, which subsists at present are so obvious as to require no argument to enforce them; I shall therefore only recommend to you, that to avoid any future cause of Disatisfaction or Jealousy being given, you will by the most effectual Laws prevent any Settlements being made beyond the Line which shall be agreed on by the Indians; punish all Frauds and Abuses which may be practised by the Traders among them; and at the same time pay a due Regard to that Freedom of Trade, which his Majesty has graciously granted to all his Subjects by his Proclamation in the year 1763.

As I presume that such parts of the late Plan pursued by the Superintendants of Indian Affairs, as have operated to the Benefit of Trade, and given satisfaction to the Indians will be adopted by you, as far as circumstances and situations will admit. These shall be laid before you, together with the Reduction of such Posts, as the Commander in Chief of his Majesty's Forces has thought proper to make in consequence of the orders he has received for that Purpose; that you may be better enabled to regulate the Execution of such Plans, as you shall think most conducive to the publick Benefit.

The Accounts which are directed to be delivered in to you by the Barrack Master, will shew that the greatest œconomy has been observed in issuing the sums granted for the support of his Majesty's Troops here, and that a particular attention has been given to the Interest of the Province as well as to his Majesty's service on this occasion.

I am extremely concerned to be under a Necessity of mentioning to you, the Distresses to which the unhappy sufferers at Montreal have been again reduced from a second Calamity by Fire; The Sentiments of Humanity which Misfortunes of this kind naturally excite will I hope plead for them, and I should with pleasure see an example shewed to the rest of the Colonies, by a generous and suitable Releif granted to objects whose present situation can be more easily imagined than described.

Gentlemen of the Council and Gentlemen of the General Assembly

I flatter myself that a just sense of the advantages to be derived to the Publick from your Unanimity and Dispatch of Business, will have a due Influence on your proceedings during the course of the Session, and you may be assured of my ready concurrence with you in every Measure, which may be proposed for his Majestys service and the welfare of the Province.

The humble ADDRESS of the Council of the Province of New York

May it please your Excellency.

We his Majestys most dutiful and loyal Subjects the Council of the Province of New York, return your Excellency our hearty Thanks for your Speech, and for communicating his Majesty's Directions, that the Regulation of the Trade with the Indians, shall for the future be left to the Colonies.

Nothing is more essential to establish and confirm the numerous and extensive Tribes of Indians in their Fidelity and Attachment to his Majesty, than proper Laws to restrain and punish all Frauds or Abuses of Traders, in their Intercourse with the different Nations: And your Excellency may be assured, that in the Consideration of so interesting an Object, we shall pursue such Measures, as shall appear best calculated to answer his Majesty's gracious Intentions.

The preventing any settlements beyond the Line which shall be agreed on by the Indians, equally deserves our serious Attention, as a Measure most likely to avoid any future cause of Dissatisfaction or Jealousy on their Part, and to render lasting and permanent the present Tranquility of the Colony.

Truly desirous that the Publick may derive every Advantage from our Proceedings, We shall endeavour to cultivate that Unanimity so highly necessary in the several Branches of the Legislature, and we beg Leave to assure your Excellency of our warmest Inclinations to concur in whatever may promote his Majesty's service, and the Welfare and Prosperity of the Colony.

By Order of the Council

New York 1st November 1768. JOHN WATTS Speaker.

DISSENT

I. Because if this Bill passes into a law, it will discourage Sales in writing; for since according to the Course of the Common Law, personal Property is transferrable by Parol, and will continue to be so this Bill notwithstanding, and a bona fide Sale in writing may be defeated by the prior registring of a posterior Sale, Vendees will hereafter for their greater safety, be induced to prefer parol to written Sales; and therefore

II. Because this Bill by urging contracting Parties to parol Dealings (which are in general the most exceptionable) tends to promote Frauds, Perjuries and Law Suits, and while it appears designed to shut out some Mischiefs, opens a very wide Door to many others.

III. Because as there is no Precedent of a similar Statute in England, and it is highly probable that the Wisdom of a Nation, so long experienced in all the Variety and Extent of Commerce, would if it was requisite have passed such a Law, a strong Presumption thence arises against this Innovation, as of dangerous or at least of doubtful Tendency.

IV. Because if this Bill is expedient, it must be as much so to every part of the Province, as to the four Counties therein named, and above all to the trading City of New York.

Where the Reasons are the same, the Law ought to be the same, but this Bill creates a Disparity, where there are no local Circumstances to make a Difference, and by unnecessarily subjecting People of the same Colony to various Rules is partial and unequal, and is regardless of the Benefits flowing from a uniformity of Legislation.

V. Because this Bill reposes too great a Confidence in the Clerks of Towns and Precincts, who, as they are chosen annually by the Inhabitants of scant Districts, have but little to do, and are generally obscure, illiterate and indigent Persons of the lowest Class. And so important a Trust as the forming and keeping a Register concerning Property, and the Right of judging when Entries are to be made to discharge Contracts, ought to be committed rather to the Clerk of the County, or some other public Patent Officer of known fixed Residence, who may be presumed to act upon higher Principles, and have more skill, and be better able to answer for his Conduct; And

Lastly, Because the Bill is ambiguously penned; and for the Execution of its own Design exposes Purchasers to needless Trouble and Expence, by rendring Registry searches necessary in all the Towns and Precincts of a County, and two of these Counties being very large, and one of them near sixty miles long, and above one and twenty miles wide, the Inconvenience of so many Registry Offices must be very apparent

Dissent

First Because the several Acts in 1754, 1758 and 1759 giving Justices of the Peace the Cognizance of Civil Causes to Five pounds (of which we have now had fourteen years experience) have contributed to debase the Magistracy, incouraged Oppression, Partiality and Perjury, and promoted Idleness, Drunkenness and a general Dissolution of Manners.

If a Justice according to the original Nature of his Office, is confined to the Conservation of the Peace, that admirable Device for Strengthening the Government, and preventing Disorders, by calling in the Aid of Men of Weight in the Country to superintend the Morals of the People, will have the most beneficial Effects: But the vast surcharge of that Office with those innumerable Litigations of a Civil Nature arising among the lower sort, has induced the principal Inhabitants to decline serving as Justices, and in a Manner compelled Government to commit the care of the Counties in many Instances to poor, mean, ignorant and unworthy Persons, of which the very Act now to be continued exhibits Proof; by forbidding the Justices who are Tavern keepers, to try causes in their own Houses.

Secondly Because even upon the supposition that the Act to be continued was not subject to this Capital Objection, it is very exceptionable upon many other Accounts.

I In not prohibiting Justices from holding their Courts in any Tavern whatsoever, it being most notoriously their Practice to do so by Compact for their mutual Interest and to permit and join in intemperate Drinking during the Trial, to the Perversion of Justice and the increase of Perjury.

II In not excepting Actions of Assault, Battery and Slander from their Cognizance and thus exposing Plaintiffs in these Causes, who where the Action sounds in Damages, can swear to no precise sum, to the Loss of their Costs, which in the latter Case more especially is contrary to Old Acts of Parliament extending to this Colony.

III In not excepting Causes for Annual Rents, Fees of Office, and Debt for Penalties on By Laws &ca dependent upon Questions of great Intricacy and Importance for the determination of which a Justice of the Peace is utterly incompetent.

IV In not limiting the Jurisdiction of the Justice to a small District, instead of leaving it commensurate with the County, and hence the Instances of Persons called to answer for a few shillings before a Justice, forty or fifty miles from their usual Abode.

V In not providing against unnecessary Adjournments of these petty Courts, which occasion great Vexation and Loss of Time to Parties, Witnesses and Juries, and give frequent Opportunities for Oppression.

VI In enabling a Justice to proceed if he pleases against a Party instantly upon the Return of the Process without previous Notice of the Plaintiffs Charge, or any Imparlance.

VII In not prescribing a mode of proceeding, which tho' summary shall not be precipitate, but conformable in the main to the plain and fundamental Principles of Law and natural Justice; as is usually done in England for the direction of Courts for small Causes, and

particularly in the Statute regulating the Courts Baron of Sheffield and Ecclesall in Yorkshire.

VIII In not directing some kind of Minutes or short Record to be made of their Proceedings, to prevent double Recoveries, and enable Executors and Administrators to support their Pleas, in the nature of Plene Administravit against second Demands.

IX In not providing Defendants the Benefit of a Discount, or of bringing Money into Court, and thus preventing a multiplicity of Suits.

X In not guarding against Litigiousness on the one hand, by preventing the Removal and Delay of Causes by Writts of Error and Certiorari, on the Penalty of Costs, and arbitrary and despotic Proceedings on the other.

XI In leaving a Plaintiff at Liberty to Apply to any Justice at his pleasure, and thus to make choice of him who is most likely to favour his cause, in preference of others in the vicinity against whom he can have no legal Objection.

XII In not prohibiting the Justices from appearing as Attornies for the Parties before other Justices, and pleading their Causes for small Fees; and such is the sunken state of the Magistracy, that this is a common Practice, to the Scandal of the Office, and the Encouragement of Maintenance and Barratry.

For all which Defects and many others too tedious to be enumerated, this Act appears to me to be one of the most pernicious Laws that can be contrived.

Thirdly Because the Act to be continued by this Bill abridges the priviledges granted by several Charters, and implicatively repeals the Act of the 14 Oc^r 1732, which confirms the charter to the city of New York; imposes burdensome Services upon the Magistrates, and diminishes the Value of the Offices of all the Clerks of the Cities and Counties in the Colony (who hold their Places by Patent) without any Recompence for their Losses.

Lastly Because if this Bill had not passed, there would still have remained Courts for the summary Trial of Causes as far as to forty shillings, pursuant to an Act of the 13 Decr 1737, and a new Act would probably have been substituted in the stead of the present Act, which gives a Jurisdiction to five Pounds, authorizing the appointment of Commissioners in every County for a cheap easy safe and expeditious determination of petty Controversies, which by relieving the Magistracy from immoderate Burdens, would have rendered the Office of a Justice of the Peace more acceptable to the better Class of People, introduced a Spirit of Subordination essential to good Government, and prevented a Train of Evils Attendant upon the Five pound Act and very detrimental both to the Crown and the Subject.

His Excellency Sir Henry Moore Baronet, Captain General & Governor in Chief of this province came to the Council Chamber and sent a Message by the Deputy Secretary requiring the immediate attendance of the General Assembly in the Council Chamber

The General Assembly attending accordingly

His Excellency the Governor was pleased to Dissolve the General Assembly of this Province, by a Speech in the words following, vizt.

Gentlemen,

The Address presented to me on the 23^d of November last, in answer to my Message concerning the Riot which was insolently attempted in this City since the Meeting of the House of Assembly, gave me the most Sanguine Expectations, that the present Session would have terminated with Honour to yourselves and real Benefit to your Constituents. The general Abhorrence without Doors, of all immoderate Measures, confirmed me in these Sentiments; and it is with the utmost concern I am now under the Necessity of expressing myself in Terms, as painful and disagreable to me, as they possibly can be to the House.

The extraordinary Nature of certain Resolves lately entered on your Journals, some flatly repugnant to the Laws of Great Britain, and others with an apparent Tendency to give Offence where common Prudence would avoid it, have put it out of my power to continue this Assembly any longer.

I observe by your Journals that you have prepared Representations of the State of the Colony, to be presented to his Majesty; Claims that respect the Supremacy of Great Britain, are of so important and delicate a Nature, that every Motive of Duty and Interest, urge you at this critical Juncture to avoid Offence, and conciliate a favourable Audience to your Petitions: From the late Assurances you gave me, I hope they are expressed in such Terms of Decency and Respect as may recommend them to the Royal Ear and merit the Attention of the Parliament.

For my own part, I have steadily aimed at, and shall still continue my Endeavours to promote the prosperity of the Colony, and I cannot help lamenting that you have suffered an intemperate Heat so far to prevail in your House, that my Duty forbids me to countenance your present Conduct; for, after you had once resolved to lay your case before his Majesty, it must evidently appear that the measures you have since pursued, were not only unnecessary, but in the present Exigency of Affairs dangerous to the Colony.

I still entertain so good an Opinion of the House in General, that I am willing to impute these Proceedings to Error, and shall in my Representations of them to his Majesty place them in the properest Light to prevent as far as lays in my Power, any unfavourable Misconceptions of the People committed to my Care, and do that Justice which is required at my Hands, to the Many who have the real Interest of the Country at Heart, and who have wished to see fairer Prospects of Advantage derived to the Community from your Session, than the Conclusion of it seems to promise. I do now in his Majesty's name DISSOLVE this Assembly, and this Assembly is hereby DISSOLVED accordingly.

His Excellency the Governor and the House of General Assembly having left the Council Chamber,

The Speaker resumed the Chair.

Ordered, that his Excellency's Speech be read.

Then the Speech was read and ordered to be entered in the Journal of this House, and the same is as follows

Gentlemen of the Council and Gentlemen of the General Assembly

The services for the Current year having in a great Measure been provided for, I shall avoid laying before you any Thing which might prolong your session at this inconvenient season, and confine myself intirely to such Matters as will require your immediate attention.

The present method of appointing an agent to sollicit the Affairs of this Colony in England, being liable to many objections, I have it in command to recommend to you the Rule observed in the West India Islands, Virginia, Carolina and Georgia as the only proper and constitutional

Mode by which any Person can be sufficiently authorised to represent the Province and to act for it in all Matters which concern its Interest in general; This has been usually done by an Act of the Governor Council and Assembly, specially pass'd for that purpose, which practice has been formerly adopted here.

A Regulation of this kind so evidently appears to be calculated for the publick Benefit, as to require nothing farther to be said in support of it, and a Deviation from the mode approved of in other Colonies, may in future create great Difficulty and Disappointment in transacting the affairs of this Province both in office and Parliament.

Gentlemen of the General Assembly

By the Barrack Masters Accounts, which I have directed to be laid before you, it will appear that the greatest part of the sum granted in the last Session for the support of his Majesty's Troops in this Province, was employed in paying off a considerable arrearage due to several persons for Necessaries furnished by them, some time before the commencement of the session in which that appropriation was made. This obliges me to lay the present Deficiency before you, and to recommend such additional provision to be made as may be adequate to the service required.

Gentlemen of the Council and Gentlemen of the General Assembly

Whatever you may have to propose during the Course of your session for the publick Benefit, will always meet with the readiest Concurrence on my Part, and I shall be happy to co-operate with you in every Measure for promoting his Majesty's service and the advantage of the Province.

It passed in the Negative.

The Speaker then put the Question

Whether the said Bill should be rejected? and

Resolved, that the said Bill be rejected accordingly.

Dissentient

I. Because the Law of this Colony passed on the first day of October 1691 intitled [An Act to divide the Province and Dependencies into Shires and Counties] is so ambiguously worded in the Clauses for ascertaining the Bounds of the Counties of Albany and Ulster, as to give rise for two Constructions relative to the Partition between them on the side of Hudson's River, which are so wide from each other, that if they are to be extended westerly to Delaware River; there are several hundred thousand acres between them, subject to a doubtful Jurisdiction.

II. Because there are many ancient and valuable Settlements on the Lands affected by this uncertainty, which has for many years past been a fruitfull Source of Contention between the Inhabitants of that Quarter, and exposes Officers and Ministers of Justice, to Expence, Damage and many Inconveniencies.

III. Because as the innumerable ill Consequences both to the Crown and the Subject of a doubtful Jurisdiction created by Act of Legislation, cannot be removed by less than a Legislative Authority, and this is the first Bill that has been passed by the House of Assembly for that purpose with respect to the Counties of Albany and Ulster, since his Excellency General Monckton's Message relating to the Inconveniencies of a doubtful Jurisdiction on the 24th of November 1762, I think this opportunity ought to have been embraced for curing the Defects of the old County Act above mentioned, which have been recommended by the present Governor to the attention of the Assembly, more than once, and were strongly urged by his Speech of the 18th of November 1767, the Mischiefs of which Defects are likely to increase, more especially since no meer Act of Government can apply an adequate Remedy.

Lastly. Because the Partition between the two Counties intended to be ascertained and established by this Bill by virtue of an express Clause, could neither prejudice nor affect any private Titles, nor as I conceive be in the least Degree injurious to the Rights of the Crown, but on the Contrary had it passed into a Law would have conduced to the restoration of Harmony among the Inhabitants living near the contested Borders, and releived the Magistrates and Officers of both Counties from many Difficulties to which they are exposed, and for these good Ends alone I suppose the present General Assembly have sent up the Bill now rejected.

Wm Smith, Junr.

Ordered, that the said Bill be read the third time.

Then the said Bill was read the third time, and

On the Question being put

Resolved, that the said Bill do pass.

Dissentient

First. Because the Bill is so inaccurately expressed that without the amendments proposed while it was under Commitment, it will be subject to doubtfull Interpretation, particularly as to the Security of the Officers Reward on an Exportation by the Manufacturer, and the acquisition of one half from the Vender upon an Examination after Sale, and as to the person or persons who are to have Costs and Charges upon an Award, and the power to settle them, and as to the nature and Quantum of those Costs and Charges.

Secondly. Because this Bill by giving authority to the Inspector to search all Vessels at discretion, without excepting small Vessels passing to the neighbouring Colonies, and without any Restraint as to the time and manner of searching Vessels bound beyond Sea, and without oath first made stating the grounds of suspicion, and the controling interposition of a Magistrate, or any provision against Despotism, Wantoness or a vexatious Search, by a Recompence in Damages to owners of Vessels and others; will expose Merchants to Embarrassments and Loss, establish a dangerous Precedent, be detrimental to Commerce, and in some degree obstruct the main design of this Bill in the Encouragement of a new Product, which is already become a very valuable Branch of our Trade.

DISSENTIENT

1. Because the Bill if it passes into a Law (so far as it respects non resident electors) countenances Doubts concerning a Right of voting for Representatives, which Right is essential to Liberty clearly established by sound Exposition, and invariably allowed.

2. Because incapacitating non Residents from representing their Electors is an alteration of the Election Act of 1699 (the first section of which is nearly similar to the Statute of the 8th of H. VI., Cap 7) is repugnant to the constant usage of Parliament, and the general practice of the Assembly for near seventy years past, abridges the Right of Electors in all the Counties, and may be very prejudicial to the City and County of New York in particular, where it is for many reasons most probable the greater number of non Resident Members would reside; and is the more unreasonable with respect to the City, since this Capital sends only four out of twenty seven Members, tho' it bears one third part of the Burden in all Publick Levies.

Then the said Bill was read the third time and
On the Question being put
Resolved, that the said Bill do pass.

Mr Smith junior moved that the Committee to whom the Bill entituled [An Act to enable every Church or Congregation of Reformed Protestants, that are or hereafter may be set up in that part of this Colony which lies to the Northward of the Counties of Dutchess and Ulster without discrimination, to take and hold real Estates to the Value of one hundred Pounds sterling per Annum, given to them for the support of the Gospel and for the use of Schools for the instruction of Youth] was Committed should make Report thereon, and

Gentlemen of the Council and General Assembly,

The Loss which the Province sustains in the Death of the Governor in Chief would be more sensibly felt by me, was I not confident of your ready Assistance and Support in every Measure calculated for the Honour and Interest of the Province.

There is now the greatest Probability that the late Duties imposed by the authority of Parliament, which have operated so much to the Dissatisfaction of the Colonies in general, will be taken off in the ensuing Session. The Prospect of this desirable Event, as it evinces the most favourable Disposition in the parent Kingdom, must afford you the highest satisfaction. And I trust that your Proceedings in the present critical Juncture, will be conducted with such Temper, Moderation and Wisdom, as will manifest your Zeal, to promote the Re-establishment of that mutual Confidence and Affection, on which the Glory and Safety of the British Empire depend.

We shall therefore chearfully adopt such Measures as may best answer his Majesty's gracious Intentions in committing to the Care of his Colonies, the future Regulation of the Trade with the Indians.

Gentlemen of the Council and General Assembly,

When his Majesty was pleased to confer on me a Government in this Country, it fill'd me with the highest satisfaction, and I esteem myself peculiarly fortunate in having been appointed to the Command of this Province, whose Example has been the happy Means of renewing that mutual Intercourse between the Mother Country and her Colonies, which is so much the Interest of both to preserve uninterrupted. This salutary Reconciliation effected by the People of this Province, cannot fail of endearing them in a particular Manner, to our most gracious Sovereign.

The violent proceedings of the Spaniards in dispossessing (in the Time of profound Peace) his Majestys Subjects of their Settlement at Fort Egmont in Falkland's Island, and the considerable naval Armaments which we hear are prepared in Consequence by his Majesty's Orders, give us sufficient Reason to apprehend that War may be the Result: If this should happen, I have the strongest Assurances that the security of this Part of his Majesty's Dominions will be a principal object of his Care and Attention. Yet it is Incumbent on us to consider what may be necessary for its Protection against the sudden Attempts of an Enemy.

Gentlemen of the General Assembly,

You cannot be too early in your Deliberations upon making Provision for those Exigencies in Case our Apprehensions should be verified.

I have nothing more at this Time to recommend to you but the Supplies for his Majestys Troops and the necessary Support of Government.

Gentlemen of the Council and General Assembly,

The favourable Opinion I have conceived of this Colony as well as my Duty to his Majesty will make me always solicitous to contribute whatever my Authority, my Credit or my Abilities can furnish to promote the Welfare thereof; the highest pleasure I can enjoy will be faithfully to represent to his Majesty the Zeal and Unanimity of his Subjects in it; and my greatest Ambition to possess the Esteem and Affection of the People of this Province.

DUNMORE.

Ordered, that his Excellency's Speech be forthwith printed.

To his Excellency the Right Honorable JOHN Earl of DUNMORE Captain General and Governor in Chief in and over the Province of New York and the Territories depending thereon in America Chancellor and Vice Admiral of the same.

The humble ADDRESS of the Council for the Province of New York.

May it Please your Excellency

We his Majesty's most dutiful and loyal subjects the Council for the Province of New York, return your Lordship our hearty thanks for your Speech; and with the greatest sincerity and Respect congratulate you on your safe Arrival.

Zealously attach'd to our august Sovereign by the firmest Ties of Duty and Affection, We acknowledge the continuance of his paternal Regard, in the gracious Appointment of a Nobleman of your Lordships eminent Rank and Merit, to preside over this his faithful Colony.

The favourable opinion your Lordship has conceived of the People committed to your care, is a happy Presage of that Harmony and Tranquility which We are confident will distinguish your Administration, and render it easy and agreable to yourself, and extensively Beneficial to the Publick. And your Lordships just Applause of the conciliating Temper they have so lately manifested in renewing that mutual Intercourse between Great Britain and her Colonies, so essential to the interest of both, demands our warmest Gratitude.

The violent Conduct of the Spaniards in seizing Fort Egmont in Time of profound Peace, is an Event which may be productive of the most important Consequences.

We ardently wish the Calamaties of War may be avoided, but since his Majesty, in Vindication of the Honour of his Crown may be drawn into Hostilities, it is with the highest satisfaction we receive your Lordship's Assurance that the security of this part of his Dominions will be a principal Object of his Royal care and Attention. Yet as it is our Duty, We shall chearfully co-operate in whatever may be necessary to guard against the sudden Attempts of an Enemy.

We have reason to expect singular advantages from your Lordships Influence and Abilities, and your Solicitude for the welfare and Prosperity of this Colony, cannot fail of securing to your Lordship the Esteem and Affection of a grateful People.

By Order of the Council

City of New York, DAN HORSMANDEN, Speaker.

Gentlemen of the Council and Gentlemen of the General Assembly

While I reflect on the important Duties attendant on the elevated Station in which it has graciously pleased my royal Master to place me, and that I have the Honour to succeed the noble Personage who so justly merited the high Applause he received from a grateful People, my Heart is filled with every sensible Anxiety, but when I review the honorable and affectionate Addresses presented to me on my arrival, my Spirits are cheared with the most pleasing expectations; That these may be realized I am now to entreat the aid of your united and generous Efforts in support of an administration which can be only successfull in proportion to the assistance I receive from you.

Through the extensive Benificence of my Sovereign unsolicited and unexpected I appear in the Rank I now stand before you. Finding my own Health and that of my Family greatly impaired by a Southern Climate, I had requested and actually obtained the Kings leave to return to my native Country; soon after which three weighty Objects presented themselves to my view. The Distractions of the Province I was in, my appointment to this Government, and the Regard due to a Family oppressed with Sickness: on the one side the support of a People Friends to the Laws, attached to the Constitution and Loyal to their Prince, was offered me to

suppress an Insurrection that had even subverted their Civil Liberties; On the other my Inclination led me to accept the more friendly Invitation to this happy climate where I expected to reap those Benefits which my Family have since in a great measure experienced in their Health; Public Duty however prevailing over every other passionate Desire, my Honour and my services I held engaged in the Public Cause free from any motive of Revenge or feeling other Resentment than what sprung from a sense of my Country's Wrongs. The Enterprize was successfull and the Event crowned with the perfect Restoration of good Order and publick Peace to the Country; Blessings under Providence effected by a small Body of Officers and men whose spirited conduct has made the deepest Impressions of Gratitude on my mind. This service unavoidably prevented my paying an earlier Obedience to his Majesty's Commands and my own wishes by repairing to this Government.

Gentlemen of the General Assembly,

Having nothing in Command immediately from his Majesty to communicate, it is my Duty to point out to you the Necessity of framing a Militia Bill upon such a system as will render it most useful in Defence of the Country.

The Injuries of Time and Storms have so defaced the Fortifications of this City that they require a thorough Repair as soon as the season will admit; I am therefore to recommend to you to provide as well for this essential Work, as the supplies for his Majestys Troops and the support of Government.

Gentlemen of the Council and Gentlemen of the General Assembly,

It is from the very favourable Reception I have met with since my arrival that I draw my most assured Hopes of future Happiness among you. Influenced only by Principles that flow from an honest Heart, I feel an ardent Desire to co-operate with you in every Measure that will best promote the Honour and Dignity of his Majesty's Government, and advance the real Felicity of a People eminently distinguished by their Loyalty to the best of Sovereigns and affectionate Disposition to their Mother Country.

The humble ADDRESS of the Council for the province of New York.

May it please your Excellency

We his Majesty's most dutiful and loyal Subjects the Council for the province of New York thank your Excellency for your Speech, and with the sincerest Respect congratulate you on your Appointment to the Command of this Colony.

The Readiness with which you anticipate our grateful Acknowledgments to your noble predecessor, as an Instance of your Generosity, is an Ernest that the same liberal Spirit, which distinguished the Government of the Earl of Dunmore, will animate and influence your own.

Permit us in Justice to ourselves, and in Return for that Regard which his Lordship still publicly professes for this province, to join the general Voice in celebrating the Equity Impartiality and Disinterestedness of his Administration.

It is nevertheless with the greatest pleasure we Declare, that we have the fullest Confidence in your Excellency: and that we consider the Commission of the province to your Care, as a fresh proof of the paternal Affection, of which his Majesty has given us ample and constant Experience: And in proportion to the Honor you acquire from its being the unsolicited Act of his Royal Wisdom and Munificence, is the Satisfaction it affords to us.

Sensible of the Necessity of Government for the Enjoyment and Preservation of Freedom, we cannot withhold this Public Testimony of our Applause, for that Spirited and Prudent Conduct, by which you lately restored Order and the Blessings of Peace to a neighbouring Colony, and suppressed an Insurrection subversive of tha Civil Liberties of that Country: The Honour of that Enterprize is the greater for the Risk to which you exposed yourself, and crowned by the Consideration of your voluntary Submission to that important and necessary Service.

We feel a singular Happiness in the Assurance we give your Excellency, that the loyal and affectionate Fidelity of this Province, will call your Attention to the more agreeable Office of cultivating its Prosperity, by the Acts of Policy and Peace: Qualified and inclined as you are to support the Dignity of the Crown, and defend the Rights and Liberties of the Subject, we entertain the most flattering hopes that the steady Pursuit of these great and inseparable Objects, will raise the Colony now under your Direction to a State of the highest Felicity.

We rejoice with you Sir in the Recovery of your own and the Health of your Family: and shall be ever ready to contribute our Aid to your private Ease, the Honour and Success of your Government, and the Advancement of the true Interest of the Community.

By Order of the Council,

New York 13th January 1772 DAN HORSMANDEN Speaker.

His EXCELLENCY'S Answer.

Gentlemen:

I return you my sincere Thanks for your Congratulations on my Appointment to the Command of this Colony.

The Liberality of your sentiments respecting my late Public Services, with the Assurances you give me to contribute your Aid to my private Ease, the Honour and Success of my Administration, and the Advancement of the true Interest of the Community; are Circumstances not less flattering than grateful to me: Be assured the Assistance of your Abilities, and Friendly Counsel, will not fail to animate my Endeavours for the Public good.

Gentlemen,

As nothing gives greater Credit to a Country than Establishments of Public Utility so it is not more at the instance of many of the principal Gentlemen in this Government, than in Compliance with my own Inclination, that I request of you to take under your Care and protection, an Institution planned by a Society lately incorporated for founding an Hospital in this City for the Reception of the Poor, debilitated by Age, or oppressed with Infirmities. The many advantages arising to a Community from a public Hospital, not to mention the Honour it reflects on its Inhabitants, are obvious to every one, and will ever be readily acknowledged by the Humane and Benevolent; and altho' Infirmaries and charitable Foundations usually owe their origin to the Bounty and voluntary Contribution of Individuals yet being calculated to guard against public Calamities and Distresses, they call for the public Aid and Assistance to give them Duration and Stability. A becoming generosity in the Legislature of a Country for the charitable purpose of relieving the aged, indigent and infirm, loaded with Ills, which Nature of itself is unable to sustain, is ever esteemed the strongest proof of National Virtue. I shall not presume to prescribe to you either the Mode or the Measure of your Liberality. Your knowledge of the police of this Government will best point out to you the former; Christian Benevolence and your own Feelings suggest the latter.

Then the Speech was read and

Ordered to be entered in the Journal of this House and the same is as follows.

Gentlemen of the Council and Gentlemen of the General Assembly,

The experience you gave me the last session of the Liberality of your Sentiments towards me, and your ready Concurrence with the Measures I then proposed flatter me at this Juncture with the like favorable Attention to what I have now to recommend to you.

It has been the peculiar Misfortune of this Country to have remained even to this day, with most of its Boundaries undetermined, a Circumstance that has in a considerable Measure retarded the settlement of the Frontiers, and proved the Source of many unhappy Disputes with its neighbouring Inhabitants and which if not speedily setled may probably be productive of more serious Consequences. Impressed with this Idea soon after my Arrival in this Government I opened a Correspondence with Governor Hutchinson on the Necessity of finally establishing a Partition Line between this and Massachusets Government. The Governor moved his Assembly to second our Wishes, and an Act passed to enable proper Persons to undertake its Accomplishment. I shall therefore lay before you the Correspondence and Papers on this Subject, wishing you may co-operate with the Massachusets Government, by passing a similar Act for so salutary a Purpose.

I have the Satisfaction to inform you the dividing Line between this Province and the Government of Quebec has been run from Lake Champlain in the forty fifth Degree of North Latitude to Connecticut River. As the Commissioners who perform that Business winter in Quebec, that they may be ready early in the spring to continue that Line from the Lake westward to St Lawrence River, I am to apply to you for a further aid for that most essential service.

The General Assembly of New Jersey having lately passed an Act similar to your own for ascertaining the Boundary between the two Governments, and securing certain Borderers in the quiet Possession of their Settlements, and as I am informed the King's Commission and the proceedings had thereon will be very speedily Transmitted to his Majesty, I entertain the warmest Expectations that the Royal Decision in the Case will shortly be obtained. These Particulars appear to me to be so interesting to the Peace and Prosperity of the Country that I cou'd not avoid urging to you their Importance.

I have been obliged to order considerable Repairs to be made to the Mansion House in Fort George to make it Habitable, the Estimates of which shall be laid before you.

Gentlemen of the General Assembly,

The Sum of Money voted the last sessions for repairing the Battery in Fort George has been appropriated to such necessary useful and ornamental Purposes, as afford the clearest Demonstration of the Expediency and Propriety of that Vote, and cannot fail of giving Satisfaction to the Public.

Having nothing immediately in Charge from his Majesty to communicate to you, I shall at present only recommend to make Provision for the Extra Services I have just now mentioned, the usual Support of Government, and the necessary Supplies for his Majesty's Troops.

Gentlemen of the Council and Gentlemen of the General Assembly,

It is with the highest Satisfaction I view the present flourishing State of this Country, and the good Order Industry and Unanimity among its Inhabitants, Blessings I ardently wish to see continued and improved.

It is evident nothing can so much ensure an Increase of Wealth to the Colony as a due Care that the good Quality of our staple Commodities may establish a Reputation at foreign Markets. Your attention to this, as also to the Mischiefs arising from the Circulation of a vast Quantity of counterfeit Currency lately brought into this Country, are objects deserving your Consideration.

The Happiness I enjoy by my Royal Masters gracious Appointment of me to this Province, I acknowledge with that Duty and affection, which warms the loyal Breast; and the friendly Consideration and Attention I have experienced from all Ranks, not only increases this Happiness, but cherishes the growing Attachment I feel for the Interest of this Colony; which however I am sensible can only be extensively and beneficially drawn into Action by your generous Aid and Assistance in the Honorable Support of the Dignity of his Majesty's Government, and the Felicity of his People.

To his Excellency WILLIAM TRYON Esquire Captain General and Governor in Chief in and over the Province of New York and the Territories depending thereon in America Chancellor and Vice Admiral of the same.

The humble ADDRESS of the Council for the Province of New York.

May it please your Excellency,

We his Majesty's most dutiful and loyal subjects the Council for the province of New York return your Excellency our Thanks for your speech.

The pernicious Effects of a doubtful Jurisdiction in the Districts affected by the uncertain Extent of the province, are so manifest, that your Endeavours to extinguish these destructive Controversies merit our grateful Acknowledgments, and animated by the same laudable Motives with your Excellency of promoting Industry, the security of Property and the general Tranquility, you may be assured Sir of our cheerful Concurrence in every Measure, tending to give the Limits of the Province a certain and permanent Establishment.

It is so much our Duty and our Interest to consult the Prosperity of this Country, that we shall be ever ready to contribute our Aid in the most effectual Manner to inhance the Reputation of its staple Commodities and defeat the flagitious Devices of those Pests of Society, who have of late been so active in the atrocious Crime of counterfeiting our Currency to the Ruin of many poor unguarded Persons, and the general Discredit of the Colony.

The Professions of your affectionate Attachment to the Province do Honour to its Inhabitants, and must afford them the greater satisfaction, as they are accompanied with such a Tenour of Conduct, as gives you a just Claim to those friendly Marks of their attention and consideration, which you have condescended so publicly to approve.

Happy under a Sovereign who is the Delight of his People, and a Representative who copies after his Royal Example your Excellency may firmly rely upon our assistance in supporting the

Dignity of his Majesty's Government, and seconding your benevolent Endeavours for promoting the Felicity of the Colony.

By Order of the Council

The Speaker resumed the Chair.
Ordered, that the Governors Speech be read.
Then the Speech was read, and
Ordered to be entered in the Journal of this House; and the same is as follows

Gentlemen of the Council and Gentlemen of the General Assembly,

While in the utmost Agony of Mind for the Safety of my Family, I lately beheld my own Interest and the Province House involved in one common Ruin, I felt the strongest Emotion of Regret for the Demolition of that Mansion, particularly after your liberall Grant for its Repair. My Anxiety also was infinitely increased by the imminent Danger which threatened the whole City.

Whatever may have been the unhappy Cause, I cannot but adore the peculiar Interposition of Divine Providence, in suffering but one of my Servants to fall a Victim to the rapid and resistless Fury of the Flames; at the same Time my warmest Gratitude is due to the Almighty, that by the powerful exertions of the Citizens and Military this Metropolis was preserved from the destructive Calamity.

The real Consolation it would give me to learn how the Fire was communicated to the Council Chamber, where it was first discovered and most probably originated, has induced me to order the Depositions of several of my Servants to be taken, that as much of this unhappy Event may be known as can be traced. From their Testimony and their regular and careful

Conduct, I cannot help entertaining at least a violent Presumption that this Misfortune did not owe its Birth to any Neglect on their Part, or Accident within their Power to prevent, but rather to some concealed Fire between the Wainscot and Chimney.

I most sincerely lament the imperfect Manner in which I am obliged to lay before you much of the Business I had digested for your Deliberation this Session, the Materials and Papers I had collected for that Purpose being destroyed.

In Consequence of the Laws passed by this Colony and the Province of the Massachusets Bay, the Commissaries appointed by each Government have, since your Recess, met at Hartford, and in the Presence and with the Consent of the respective Governors entered into an Agreement for setling the Line of Jurisdiction between the two Provinces, which I now lay before you. It has already been transmitted for his Majesty's Approbation, and as I cannot doubt its receiving the Royal Sanction, a final Period must soon be put to a Controversy, which for many years has not only affected the Property, but greatly disturbed the Tranquility of many of his Majesty's Subjects in both Governments.

To remove the Difficulties which obstructed the Completion of the Line in part run between this Province and Quebec, I visited that Government the last Summer, and from the Measures concerted with Lieutenant Governor Cramahé, promised myself this Business would have been effected before the approach of Winter; but the Survey being protracted from the low marshy soil through which the Line passes, and a Series of unfavourable Weather, the Provisions of the Party were exhausted and being disappointed in their Expectations of a seasonable Supply, the Surveyors were compelled to abandon the Work, leaving unfinished, as they report, a space not exceeding Ten Miles to Lake St François, where the Survey was to have terminated.

Gentlemen of the General Assembly,

Besides the Provision for the Support of Government, and the necessary Supplies for his Majesty's Troops, which I recommended to you, some Expences have been incurred for Repairs and other Services, and being of real utility, I flatter myself they will be considered by you as meriting a public Allowance.

Gentlemen of the Council and Gentlemen of the General Assembly,

The Contests which have arisen between the New York Grantees and the Claimants under New Hampshire, and the Outrages committed on the Setlers under this Government, having been productive of much Confusion and Disorder, and requiring immediate Consideration, His Majesty has been graciously pleased to command me to repair to England for a short time to attend the Discussion of this important Matter.

Impressed with the most cordial Affection for a People who thro' the whole Course of my Administration have honored me with every possible Mark of Regard and Esteem, permit me to assure you, that during my Absence I shall chearfully embrace every opportunity of promoting to the fullest Extent of my Power, the Reputation Interest and Happiness of this respectable Province.

To His Excellency WILLIAM TRYON Esquire Captain General and Governor in Chief in and over the Province of New York and the Territories depending thereon in America Chancellor and Vice Admiral of the same.

The Humble ADDRESS of the Council of the province of New York.

May it please your Excellency

We his Majesty's most dutiful and loyal Subjects the Council for the province of New York return your Excellency our Thanks for your Speech.

Animated by the sincerest Affection for your Excellency, and feeling ourselves interested in the Felicity of your Family, we find it difficult to express either our Affliction for the heavy Losses you sustained by the late Fire, or our Gratitude to God for mingling so much Mercy, in that alarming Dispensation of his Providence.

In the Review of the Events of that tragical Night, We cannot call to Remembrance those critical and distressing Moments, when you and your whole Family, were nearly incircled by the devouring Flames, without Anguish and Horror: And acknowledging this signal Deliverance to be a most gracious Act of the divine Benignity to the Province in general, We humbly and heartily join with your Excellency in the devoutest Oblations of Thanksgiving and Praise.

An Uncertainty of Jurisdiction being inevitably productive of Discord and Violence, and involving the Inhabitants of the contested Districts in all the numberless and complicated Miseries of a lawless State, with pleasure we bear Testimony to your Zeal and Assiduity in pursuing the great and necessary Object of ascertaining the Boundaries of the Province; and We hope your unwearied Endeavours in that laudable Service will be crowned with the desired Success.

It is nevertheless with no small Degree of Anxiety that We are taught to consider your Attendance in England as requisite to the Reestablishment of peace in that Corner of the Colony, which has been for so many years past disquieted, by unjustifiable Claims under the Province of New Hampshire.

Important as the End is of vindicating the Authority of the Laws, long prostrated by the licentious Excesses of a Confederacy of Insurgents, who equally daring and cruel, have spread Horror and Desolation through a fertile and extensive Territory, clearly within the antient Grant of this Colony, solemnly adjudg'd to be a part of it by the Royal Decision, and afterwards graciously distributed as a Reward to the brave Officers and Soldiers by whom this Country was rescued from the Incursions of the Enemy; and tho' we have also the firmest Reliance on your Friendly Representations to our Most gracious Sovereign, yet we cannot help anticipating the Moment of your Departure as an unfortunate Event to the Colony.

Happy under an Administration mild, active, generous and just, our Loss, Sir, is certain, even tho' you lay down the Reins of Government only for a Season; and as your Return must from the Vicissitude of human Affairs, be precarious at best, permit us to say, that We yield to your Voyage with a very painful Reluctance.

In Gratitude to your Excellency for your benevolent Engagements to promote the Interest, Reputation and Happiness of the Colony, you may rely with the most assured Confidence upon our chearful Concurrence in every Measure, advancive of his Majesty's Service, the Honor of your Government, the Prosperity of your Family, and the Felicity of a People undoubtedly disposed to give you the most incontestable Marks of their Sympathy and Affection.

By Order of the Council

Council Chamber New York
13th January 1774.

Jno Watts Speaker.

His Excellency's Answer.

Gentlemen

I return you my very sincere and cordial Thanks for your affectionate and loyal Address; and the sympathetic Part you take in a late Tragical Event greatly alleviates my Affliction on that Occasion.

While I acknowledge the real Satisfaction I experience from the highly honorable Testimony you bear to my Administration, Candour and Truth oblige me to say that much of the Honour and Success of my Government, is due to the Wisdom of your Counsel and Advice.

The liberal Aid of your Abilities in the arduous Affairs of my exalted Station; the Affection you profess for me; the Interest you feel for the Prosparity of my Family; the friendly Manner in which you mention my approaching Departure, with your Readiness to promote his Majesty's Service, and the Felicity of his People, all swell my Breast with a generous Glow of Gratitude, and intitle you to my lasting Esteem and Regard.

And the said Motion being seconded, was

On the Question being put

Carried in the Negative.

DISSENT.

First, Because there is great reason to apprehend if the General Assembly do not consent to the last amendment proposed by this House, that the Militia Bill will be lost by the Governor's negative.

Secondly, Because the Condition of the Province renders it Dangerous at this Juncture to leave the Executive Branch without the aid of the Militia, it requiring but little Discernment to foresee, Judging from the Addresses of both Houses to his Excellency at the opening of the present Session, the Resolves of the lower House, and the Act we have just passed, relating to the outrages in the northern Counties, that if there is no Militia to suppress Insurrections, and aid the Posse Comitatus, the Possessions of the reduced Officers and Soldiers and others, claiming Lands in the Counties adjudged to be within this Colony by the Royal Decision of 1764, will be destroyed by the Ravages of the Rioters, of whose Enormities the oppressed Inhabitants have so often and so loudly and Justly complained.

Thirdly, Because it appears to me highly probable that the General Assembly may be persuaded by a free and friendly conferrence to consent to the last amendment proposed by this House, when they are made acquainted, that the Council cannot recede from the proposed amendment:

(1.) Because such a Restraint upon the Crown, as the clause objected to contains, would be an Attack upon the Royal Prerogative, of distributing Honors and Trusts according to his Majesty's Pleasure.

(2.) Because the like amendment to a Militia Bill was sent down to the Assembly in March 1772, and then by them assented to.

(3.) Because no Instance in the Conduct of Government, since the passing of the last Militia Act in 1772, can as I conceive be assigned to Justify a change of the sentiments, manifested by this House, in proposing the amendment at that time, and by the Assembly in Assenting thereto.

(4.) Because the receding from our Amendment, may not only expose us, to the Imputation of Instability in our Councils, but open a Door to surmizes already incongruous with the Honorable Testimonials we have given, and justly owed to his Excellency, for an administration wise and impartial, fair and generous and steadily conducted, by Principles unbiased by Party Feuds and acknowledged to be equally friendly to the Rights of the Crown and Weal of the Colony.

Lastly, Because throughout the whole Militia of the Colony, I do not recollect any Militia Officer, except the single Instance of a Gentleman in the Rank of Colonel, residing out of the County where his Regimt is formed, who nevertheless dwells at no remote distance from it, has a House and Servants there, to which he frequently resorts, enjoys one of the most opulent Estates in the County, and had the Rank of Colonel conferred upon him in the administration of Sir Henry Moore. Whence there seems to be room to conclude that the evil consequences of the appointmt of one non resident Colonel (and he not complained of by the Regiment, and removable by the Governor, if he was) must be if not imaginary, of very little moment if we consider on the other Hand the imminent Dangers to which the northern Setlers will be exposed, the aspect which the Bill unamended will have upon the Prerogative of the Crown, and the Expence and Trouble of a new convention of the General Assembly which will be necessary if the Public Tranquility should unfortunately be disturbed by a renewal of the Disorders in the Northern Districts of the Colony.

WM SMITH.

Gentlemen of the Council, and General Assembly,

I think it unnecessary at this time, particularly to Recommend to your attention the ordinary Business of the Legislature; whatever may be found Conducive to the Dignity of His Majesty's Government, or the Happiness of His People in this Colony, I shall cheerfully promote.

Gentlemen of the General Assembly,

The Support of His Majesty's Government, and other Allowances for His Service, I doubt not you will readily provide for.

Gentlemen of the General Assembly,

We cannot Sufficiently lament the present disordered State of the Colonies. The Dispute between Great Britain and her American Dominions, is now brought to the most Alarming Crisis, and fills every Humane Breast with the deepest Affliction. It is to you, Gentlemen, in this anxious moment, that your Country looks up for Council; And on you it, in a great Measure, depends to Rescue her from Evils of the most Ruinous Tendency. Exert yourselves then with the Firmness becoming your Important Office. If your Constituents are discontented and apprehensive, examine their Complaints with Calmness and Deliberation, and determine upon them with an Honest Impartiality. If you find them to be well grounded, pursue the Means of Redress which the Constitution has pointed out. Supplicate the Throne, and our Most Gracious Sovereign will hear and Relieve you with Paternal Tenderness. But I entreat you, as you regard the Happiness of your Country, to discountenance every measure which may increase our Distress: And anxious for the Re-establishment of Harmony, with that Power with which you are Connected by the Ties of Blood, Religion, Interest and Duty, prove yourselves, by your Conduct on this Occasion, earnestly sollicitous for a Cordial and permanent Reconciliation.

Gentlemen of the Council and General Assembly,

In the Absence of our most worthy Governor in Chief, no less distinguished by his extensive Abilities than his Zeal for the Honor of The Crown and his Affection for the People of this Province, and at so critical a Conjuncture, it gives me great Consolation that I can repose the Utmost Confidence in your Wisdom, Your Attachment to the Constitution, and your Regard for the Interest of the British Empire. And you may be assured that my most strenuous Efforts shall be exerted to co-operate with you, in restoring that Tranquility which must be the Ardent Desire of every Wise, Virtuous and Loyal Subject.

To the Honorable CADWALLADER COLDEN Esquire His Majestys Lieutenant Governor and Commander in Chief of the Province of New York and the Territories depending thereon in America.

The Humble ADDRESS of His Majesty's Council for the Province of New York.

May it please your Honor.

We His Majestys Most dutiful and Loyal Subjects, the Council for the Province of New York, return you our Thanks for your Speech.

The Utility and Necessity of promoting His Majesty's Service, and the Felicity of the Colony, are so Apparent that you may be assured of our ready Concurrence, in every measure friendly to these important and inseperable Objects.

Attached—most Affectionately and Inviolably Attached to the Honor and Interest of the King, Zealously concerned for the Prosperity and Glory of Great Britain and her Dependances; and impressed by a due Sense of the innumerable Benefits, flowing from an harmonious Connection between the several Branches of the Empire, We cannot look at that Awful Precipice to which the unnatural Discords between the Parent State, and her Colonies are tending, without Horror and Consternation.

In Controversies turning upon Principles of the deepest Policy, and of such amazing Magnitude, as to involve the Provinces in the most distressing Perplexities, the Glorious Work of restoring the common Tranquility, and establishing an intimate and permanent Union between all the Parts of the Empire, must (under God) ultimately depend, upon the Wisdom and Benignity of the Crown, and the Justice and Magnanimity of the British Nation.

Gladly shall we sieze every opportunity, to effect a Reconciliation between Countries whose Interests are so inseperable, that the true Patriot of either must be a real Friend to both: And while the means to this desireable End, employ the Councils of the Nation, our most Vigorous Efforts shall be steadily exerted, to prevent the destructive Consequences of Anarchy and Confusion.

It affords us great Relief in this Critical Hour to find your Honor heartily disposed to promote the same Salutary Designs: and it adds to our Consolation that in so alarming a Conjuncture this Colony has in her Chief Governor, an Advocate near the Throne, upon whose distinguished Abilities, and active and generous Benevolence Men of all Ranks amongst us Rely, with the firmest Confidence, for a true and faithful Representation of our Condition and Character.

By Order of the Council
DAN^L HORSMANDEN, Speeker.

Council Chamber New York
January the 18th 1775.

Mr Smith delivered in his reasons for dissenting to the Bill entitled [An Act to regulate Elections for Representatives in General Assembly for the City and County of Albany.]

Dissentient — *Wm Smith.*

First, Because the Bill appears to me unjust. The Manor of Renselaerwyck acquired the Right of sending a Member to the General Assembly by Royal Patent in 1685. The Bourough of Schenectady and the Manor of Livingston in 1715. The Assembly afterwards received their Members, and the Legislature by divers Acts providing for the payment of their Wages and other Purposes have recognized the Rights they have so long exercised. By the General Election Law, passed in 1699 and 1701 all the Freeholders of a County, qualified as therein mentioned, without the exclusion of any Manor or District, have voices for the County Members. But this Bill if it passes into a Law, will turn the Grace of the Crown into an Injury, since the Privilege of chusing two Representatives must [be] greater than that of electing onely one; especially such a large District as the Manor of Renselaerwyck, which comprehends more Land, than all Long Island and Staten Island taken together; and yet these form four Counties, two of which, Richmond and Kings, do not contain half the number of Freeholders in Renselaerwyck alone, nor above one third more than there are in the Manor of Livingston, and fewer than those in the Manor of Cortlandt.

Secondly, Because the Bill appears to me to be partial by not including the County of West Chester, where the Borough of West Chester enjoys the Privilege of sending a Member by Patent granted in 1696, and the Manor of Cortlandt by a similar Grant of the Crown in 1697, in which sentiment I am confirmed on recollecting that a Bill for the like purpose was upon this account rejected by the Earl of Dunmore in February 1771 That the attempt was renewed by another Bill in March 1772.

That the Council then sent down Amendments to free it from that objection by extending it to West Chester That the lower House concurred in our Amendments, tho' the Bill even after it was so amended, did not pass, Governor Tryon refusing his Assent in conformity with a Royal Instruction respecting Bills affecting elections, of which he then produced a Copy in Council.

Thirdly, Because if there were any reasons of Policy, to overballance the objections to the Bill, founded on its Injustice and Partiality, and the Propriety of maintaining a steadiness in our Councils, the most reasonable Provision for reducing the antient Privileges of the Freeholders of these Towns and Manors under the Royal Patents and Acts of the Colony, would have been the allowing them a choice, either of voting in their own Districts for a single member, or of joining their Voices with the other Freeholders at large, for the county representatives.

Lastly, Because a Bill of so extraordinary a nature, touching Rights of essential Importance to some thousands of his Majesty's Subjects, originally conferred by the Crown, assented to by Assemblies, recognized by the Legislature, long injoyed and guarded by special Instruction, ought not to pass, without a suspending Clause, till his Majesty's Pleasure is known, for reasons similar to those, upon which that other Instruction is founded, which most benevolently secures private Property from being injured by any Act of the Provincial Legislature, without giving the Party affected by it an opportunity of carrying his Complaint to the Throne.

The Council adjourned till Tuesday next 11 o clock.

Tuesday, the twenty eight day of March, 1775.

NOTE.

The 19th Assembly having been dissolved on the 25th November, 1727, Writs were issued on the 12th February following, for choosing a new one, returnable 25th March. Representatives were elected accordingly, but on the 22d of March, the General Assembly was, by proclamation, prorogued until the 8th of April, 1728.

All the members elect, except two, appearing at New York on the 25th March aforesaid, found the Assembly prorogued, the Governor declaring he intended to continue the prorogations until his successor arrived, whereupon the said members returned to their respective habitations.

On the 6th April, the General Assembly was, by another proclamation, further prorogued until Monday, the 22d of the same month.

Governor Montgomerie, having arrived at New York on the 15th April, the Assembly was again dissolved on the 20th of the same month, without having ever met.

These facts are set forth in the Journal of the General Assembly, I, 573. As the Legislative Council, however, did not meet or hold a session, the case is not recorded or mentioned in this Journal, and notice of the matter has been omitted on page 563, as it was thought best to print the Minutes strictly according to the record.
